Grumpy - May 16, 2011, 6:34 am

Hey everyone!

[.com](#)[\[spam\]](#) is a new-ish shopping website where premium goods are sold at a very low price. Everything you see there is 100% legitimate and genuine and is stored in warehouses in Hong Kong, hence the low storage costs meaning better prices can be offered to you, the customer!

Come on over and check out [.com](#)[Focal Price](#) and everything it has to offer today!

Whilst this does sound like he's doing a really shit advert for his own online shop, i have to agree, [\[spam\]](#) IS actually one of the best online sites out there for electronic goods etc (including laser pointers)

Tyl3r - May 16, 2011, 2:37 pm

[\[spam\].com](#) is my favorite wholesale website. In fact, just ordered a new knife from them yesterday. :)

ChilliBeefSausage - May 16, 2011, 4:49 pm

Lol nice thread aha. Are the electronics goods there good? Dealextreme sometimes have dodgy/fakes etc.

snider.wes - May 16, 2011, 4:58 pm

not everything on [\[spam\]](#) is genuine..in fact i believe a large portion aren't. but it IS cheap.

ChilliBeefSausage - May 16, 2011, 5:02 pm

Actually, 95% of the things on Focal Price are genuine items. There are a few fake items there, but not a lot of them, to be honest. And the fake things are very high quality, yes. Electronics are one of the best things Focal Price sell and are cheap too... Have a look for yourself. ?

It's not actually. 5% of the stuff isn't genuine. Most is. Stuff isn't made in Hong Kong, it's just stored there. Land space is cheap in Hong Kong, so....

Deuces - May 17, 2011, 5:36 pm

Mind telling me what are some of the geniune items they have on the site?

****_**STEADYHUSTLIN94**_**** - May 17, 2011, 6:35 pm

Just bear in mind that they ship from Hong Kong and they send out many orders daily. Just wait another week or so. If you don't have it, submit a support request to them and they'll refund you or send you a new item... They're good with things like that. ?
