Thread: [Escrow Service.](#)

**Factor8™** - May 17, 2011, 10:56 am

Seeing the state of the marketplace, i finally decided start my Escrow service officially( Well making this thread).

An escrow is: Explanation.

\* An arrangement where an independent trusted third-party receives and disburses money and/or documents for two or more transacting parties, with the timing of such disbursement by the third-party dependent on the performance by the parties of agreed-upon contractual provisions, or

Escrow generally refers to money held by a third-party on behalf of transacting parties

A financial instrument held by a third party on behalf of the other two parties in a transaction. The funds are held by the escrow service until it receives the appropriate written or oral instructions or until obligations have been fulfilled. Securities, funds and other assets can be held in escrow.

Be aware that i have discreetly done \$50000+ escrow deals successfully on HF since 2010..

In layman's terms, i simply do middle-manning for the protection of the buyer as well as the seller.

I believe my credentials at HF are impeccable and trustworthy. ?

I am willing to offer Escrow for both physical goods as well as virtual goods which involve substantial amount of money.

My rules are simple.

1) I only do BTC/WMZ/ any irreversible E currency. escrows. Which means no risk of charge backs for the buyer/seller as well as me. Basically if one of the E-currency cannot be reversed, i will do it.

2) My Escrow fees are flat 5%+ Transaction fees. If the Deal fails , the entire amount gets refunded back to the Buyer.

3) All deals are only and only done on HF Pm.

Imo, it's always better to pay some nominal Escrow fees and be safe rather than be scammed and lose the entire principal. ?

Looking forward for this. Feel free to Pm me anytime to discuss.

Really good service. An escrow service by a staff is always good and makes both parties feel safe. ?

Good luck with this new venture. ?

Thanks. Tbh, i was still doing this much before i got staff so..

I don't know what to say. The most trusted member is offering escrow services. Although you don't need my vouch, you have it.

**Industry** - May 17, 2011, 11:13 am

Vouch for my buddy Factor8. I payed him via LR and he ordered me something from eBay. Which is awesome because I am not allowed to use PayPal and that is the only payment most vendors except.

I have already completed this deal for \$650 with Factor8. The whole time he was very thorough and very easy to talk to. Also very easy to keep in touch with.

Very fast and reliable service. You will not be disappointed.

Good luck with your service. Which party pays the fee?

**Nightmar?** - May 17, 2011, 11:15 am

The Buyer pays, but if the amount is really high, then both parties can split. :)

Vouch for my boyfriend Factor8, he is legit. And good luck with the sales

**Bacardi** - May 17, 2011, 11:19 am

Do you have like a mimuium transaction price, like \$50+  
or for example would you \$1  
(not that anyone would scam for \$1?)

Lol. Well common sense says i would not do low valued transactions also. :)

But anything above the \$50 range is ok. (May 17, 2011 11:41 AM)Magnetic Wrote: [\[CITE\]](#) I may be using this service in the near future.

Big vouch for Factor8™ He has been escrow for me before on a \$300 exchange. after sending Factor8 the money we did have a problem with the other person involved in the trade but my money was never in danger of being lost. When the other guy backed out Factor8 refunded me the full amount. Very trusted and easy to deal with. Thanks man.

(May 17, 2011 10:56 AM)Factor8™ Wrote: [\[CITE\]](#) Seeing the state of the marketplace, i finally decided start my Escrow service officially( Well making this thread).

An escrow is: Explanation.

\* An arrangement where an independent trusted third-party receives and disburses money and/or documents for two or more transacting parties, with the timing of such disbursement by the third-party dependent on the performance by the parties of agreed-upon contractual provisions, or

Escrow generally refers to money held by a third-party on behalf of transacting parties

A financial instrument held by a third party on behalf of the other two parties in a transaction. The funds are held by the escrow service until it receives the appropriate written or oral instructions or until obligations have been fulfilled. Securities, funds and other assets can be held in escrow.

Be aware that i have discreetly done \$50000+ escrow deals successfully on HF since 2010..

In layman's terms, i simply do middle-manning for the protection of the buyer as well as the seller.

I believe my credentials at HF are impeccable and trustworthy. ?

I am willing to offer Escrow for both physical goods as well as virtual goods which involve substantial amount of money.

My rules are simple.

1) I only do BTC/WMZ/ any irreversible E currency. escrows. Which means no risk of charge backs for the buyer/seller as well as me. Basically if one of the E-currency cannot be reversed, i will do it.

2) My Escrow fees are flat 5%+ Transaction fees. If the Deal fails , the entire amount gets refunded back to the Buyer.

3) All deals are only and only done on HF Pm.

Imo, it's always better to pay some nominal Escrow fees and be safe rather than be scammed and lose the entire principal. ?

Looking forward for this. Feel free to Pm me anytime to discuss.  
What is your max limit in \$ ?
