RDG Packer Detector v0.6.7

RDG Packer Detector is a detector for packers, compilers, among others.

I bring you the latest update of this excellent program.

Features

- Has Quick detection system.

"He has powerful detection system analyzing the complete file, allowing packers multi-detection in several cases.

- Allows you to create your own detection signatures.

"Crypto-Grafico Analyzer Has.

"It enables the checksum of a file.

"It enables the Entropy, informing if the analyzed program is compressed, encrypted or not.

- Detector of OEP (original entry point) of a program.

"You can Check and download signatures.Así RDG Packer Detector forever you will be updated.

- Loader Plug-ins ..

Signatures-converter.

- detector-distorting Entry Point.

- De-Binder attachment extractor.

"Improved heuristics.

What's new v0.6.7

- New Interface!

Fast-Mode Detection Mode and Enhanced Powerful!

Super-Base of Signatures Updated!

Binders-heuristic detection

"Detection and Extraction Overlay!

- Checking and Automatic Updating!

Super-Fast Detection MD5 Hash!

Multiple-Support Plug-ins for both RDG Packer Detector and other detectors!

Multi-Format Detection MPG, GIF, RAR, ZIP, MP3 etc.

"Detection and removal of attachments!.

- Improved Heuristic!

"Greater stability!

- Supports Windows Vista & Windows 7

"Optimization in scanning speed

MA-detection (Quick) Totally Integrated Home Interface

From New Multi-Language.

And Much More!

It is an indispensable tool when working on the analysis of executables.
