Reserving spot

For future reference, I want to get 5 more rep before I enter*NOT ASKING FOR REP*, I have 3 threads right now, Sorry if this is not allowed.

?u????? - May 18, 2011, 6:22 pm

I've posted this on a few threads, and needing this upgrade pretty much. I'm a new member, but high quality.

I think i deserve the upgrade because im always online, i post high quality and always have done since ive joined, i understand that i am a new member but im making high quality posts. I'm trying my best to contribute to the forums, im always ready to help people with any help they need. I have knowledge in a lot of stuff, i code in many different languages and have knowledge in nearly every programming language. I'm not just some skid that joins a forum, wants to know how to hack. I've been there and done that, ive been on the webs now for many many years, im ready to help people with the knowledge i know.

I think if i have ub3r or 1337 i will actually post more than i am doing now. This is because it makes me look more respected and gives me more confidence in helping users, and they will trust me and have confidence that i am a legit guy wanting to help. I'm a very nice guy i wouldn't scam anyone and never would, i think that scammers don't deserve to be apart of such a great community like hackforums and thats what ruins it and same with the people that troll and flame.

I understand the requirements and understand that your not allowed any negative rep, but i can assure you the rep that was given to me was just by someone that didn't like me and i didn't actually do anything wrong, honestly. If you look at nearly all of my posts you will see that im a nice guy and

post high quality and have respect for every forum member, im a very very new guy to the forums and have been around for a while, ive known hackforums for a few years now and decided to give it a try.

I think i deserve this as i would really like the upgrade of ub3r or 1337, i think that i can be a very very well respected user on here and will remain active for many many years, ive been active on many forums before such as the big security boards like r00tsecurity and goverment security, since these boards are no longer active i am ready to start on another board like hackforums. I understand this post is pretty long and it shows how much i want this upgrade, i have very very little knowledge when it comes to internet marketing so im very very LOW on cash but learning new methods on gain money so its people like you i need to allow me to be upgraded.

I'm a very very respected and active user, i think i really deserve this upgrade, please make a wise decision of this, and i can assure you if you upgrade me to more of a respected user group i will assure you won't be disapointed and will see me around the forums as a respected, well known, user.

Makaveli™ - May 18, 2011, 7:00 pm

Im not trying to sound selfish but i probably will anyways, Id like to nominate myself. Now im not going to go on, and make a huge speech about how i should get L33T and stuff, but i respect everyones post, And i really like the HF Community. If i got l33t, id definately be on HF more, probs double the time im on here a day already. So please, When nominating people, take me into consideration.

citg0 - May 18, 2011, 7:05 pm

Thanks Eyedeas and Abilities! I don't meet your requirements yet Torrent. but I'm sure you can count me in soon enough.

Reason why I want Leet:

I know it not required to post a reason but I feel its necessary.

I would like to be upgrade to leet because I feel I have been a great member to this community, I'm not a low quality user, I give back to the community (currently I have 2 giveaway threads and will provide links at bottom), I don't hesitate to help any members when I know I'm useful, and finally my name is pretty freaking sweet. I know I don't meet the requirements yet but I hope you can see my potential here on HF.

I hope I can enter in this contest before its over and I hope I convinced you to upgrade me.

Thanks, and good luck to others.

Magnus - May 23, 2011, 7:35 am

Well I joined Hack Forums a few days ago, but I have learned a lot. And I have posted 2 tutorials and I also have tried to help a lot of members here at the HF community. All of my posts are high quality. (If you want proof please check my [Posts](#)) I think I deserve l33t because I really try to help a lot of members and I want to be a really nice person, I didn't do anything bad though. My grammar is really nice. And I have some good and nice skills. But I am going to start a new skill called coddling. I am a really active user and I am known as a good member. No one hates me. If you check my reputation you can see a Neutral Reputation, but I don't know why I received it. His comment says that I stole his User name. Well I didn't do it on deliberate.

Well, I wish luck to all who recruited here.
