PLEASE FEEL FREE TO REPLY OR MESSAGE ME :.....:

I bet that player would feel bad if you steal his log info.

Anyway check this thread:

<https://hackforums.net/showthread.php?tid=12583>

Or you may use Brutus.

wolfmotha1305 - March 23, 2008, 7:06 am

i no him im allies with him and he said i could have his account but i dont want his cause it would be deleted if admins found out but i wanna make my normal account better and both staff nd admins havent been on in like 2 months

Crow - March 23, 2008, 7:28 am

I'm not sure I get you...

What do you want to do?

Crack someone's account or what?

wolfmotha1305 - March 23, 2008, 7:35 am

yes i wanna hack into an admin or staff members account to transfer me some money in the game but one of the admins refuses to play till another admin or staff comes on nd i have no way of messaging him for his log in info and he hasnt been on in about 2 months which is also where i can get his e-mail. : . : . : hopefully you can help me with this

Crow - March 23, 2008, 7:44 am

Assuming that you're using Windows, search for a program "Brutus".
(you'll have to learn how to use it though).

wolfmotha1305 - March 23, 2008, 7:49 am

im at a site calle: <http://www.hoobie.net/brutus/>

is tht the right or good site to be at? and if so

but idk if this matters but the players account i wanna hack on the game is destructo and his e-mail is :

stringsbeast@live.be

or

matty_garcia@hotmail.co.uk

i think those are log in e-mails so can you help me get the password for one of the accounts. idk? im just guessing it would be easier if i put the e-mails

wolfmotha1305 - March 23, 2008, 9:56 am

guest:guest123

...idk? wat it means but can u tell me wat i have to do next?

Crow - March 23, 2008, 10:28 am

Search for tutorials for brutus, and also type 'brutus' on youtube, and see how some people are using it.

wolfmotha1305 - March 23, 2008, 10:56 am

i did search but theres like 5 vids and it doesnt really tell u in some nd then theres like wresting videos that say brutus

Crow - March 23, 2008, 11:17 am

Well I can't help you more.

I haven't used Brutus for months, and can't run it on my linux, so I can't help you.

I hope someone will see this and will help you.
