Lol nice, not sure if the other guy will agree :P

iHale - May 19, 2011, 12:31 am

I don't agree with the other guy's intentions. The information provided in the internet is free under no authority.

Developer - May 19, 2011, 12:40 am

Yeah, thanks for posting it. The other guy is just wanting reputation points. That is the only reason why people want others to send them PMs.

Google never fails to deliver.
