Could someone please make me a sig. I'm looking for something with darker colors such as black and gray and abstract with the text "Hellz0wnzJ00"

i also like the small digital stuff people add to there art using periods and other symbols and such if u know what im talking about. clearly im not gonna be a pain in the ass when asking for a favor so its not a big deal just figured i throw it out there. :)

thanks so much!!
