Group Leaders: [Nokia2mon2](#)

Yes, you heard it right. The "Red Lions" are recruiting once again. After a hard period we are back and stronger than we have ever been before. We are a group aiming for the highest quality a group can reach, in order to do so we will need our members to co-operate and be dedicated. We do not want scammers, flammers or any other kind of Low Quality members. We will tempt to upgrade the best members of our group. Whether you are already upgraded or not, the group is open to everyone.

Our userbar image:

[img]http://hfmaxcdn.witza.netdna-cdn.com/images/blackreign/groupimages/english/redlion.png[/img]
]

The purpose of our group is to do the following:
Contribute high quality toward the forums.

Report accurate, correctly. We will report all offenses.

Contribute to the cleaning of the market place.

Reinitialize a scammers database. In this a list of all known HackForums scammers will be kept.

Share knowledge of our knowledge, ranging from hacking to graphical design, computer cleansing,
..

Treat everyone on HackForums equally.

We tempt to donate as much as possible, as often as possible.

We will support marketplace vendors with good projects.

In order to join this group, you must meet the following requirements:
You have no warnings for flaming.

You have no sales trashing history.

You have no open scam reports, nor previous ones.

You have over 300 posts.

You will respect our leaders, and the staff members.

Below is the format that you must use to apply for the group. If you apply with any other format you will be denied.

Code [b]Name[/b]:

[b]Age[/b]:

[b]Skills[/b]:

[b]Donated to HF?[/b]: (If yes, how much. If no, how much would you donate if you had to chance to do so?)

[b]Link to a contribution you've made for HF[/b]:

[b]Why do you want to join The Red Lions?[/b]:

[b]Why do you deserve to be a Red Lion?[/b]:

Don't contact me or any other leader of the Red Lions concerning your applications. These will be reviewed when we ought it necessary. Doing so will result in instant denial.

Thanks for reading, good luck to everyone applying. ?

MouseDesign - May 23, 2011, 9:07 am

I wish the best of luck to all applicants. Be sure to take your time to fill in the application format. We will be stricter this time.

Diabolic - May 23, 2011, 9:10 am

Name: Cameron aka Diabolic

Age: 19

Skills: Hacking: MySql Injection, Logging, Ratting, Spreading. I can build PC's and repair them as that's what my everyday job contains, I will be making some computer tutorials very soon.

Donated to HF?: Have donated 37 dollars with upgrades and once work pays of going to donate 500 dollars and 500 dollars Ir also. By the end of my hackforums life which will not be anytime soon I hope to of donated a lot of money hence why I have set the first goals to when i get 1000 dollars online i will donate it all to hackforums, 500 by LibertyReserve and 500 by PayPal.

Link to a contribution you've made for HF: I have made many but they have not be dated in a thread yet, I am working on a e-book that's going to be massive and best of all 'FREE'. I have to admit I don't have any big threads containing any contributions I have done but there are many posts I have done and I have a thread for ub3rs which could be classed as a contribution. I have this but I don't know if it's classed as a contribution:

<https://hackforums.net/showthread.php?tid=1185007>

Oh and I have contributed to RedLions before as I helped technology maintain and get Red Lions chat done via there red lions site.

Why do you want to join The Red Lions?: I have always wanted to join the red lions as I find it a

really active group and a chance to let me spread my wings a bit and I would be so active in the red lions sub forum as I heard its huge.

Why do you deserve to be a Red Lion?: Because I am active and there has not been a day on HF were I have not at least logged on for a bit. I am always available to help any member on hackforums, I try my best to be helpful I am basically a grammar nazi as I hate misspelling words and you may think that's said but its an OCD I have about my punctuation aka grammar. I really think I would be a good/active member and would be a fun member to have in the group. I hope to join very soon, that is if I get accepted.

P.S: Welcome back Nokia ;).

I want to join a community that has the utmost respect of HF. I desire to help fellow Red Lion members in any way I can.

I also desire to help fellow members no matter who they are or what they need unless it qualifies as begging.

I desire to be a great, helpful member that anyone can turn to.

Why do you deserve to be a Red Lion?:

I'm a helpful and kind member and I'm sure many of the people who know me will attest to that.

I've desired being a member of the Red Lions shortly after joining seeing how much they help other members and the effort they put into being great members.

I've helped a substantial amount of members since joining HF, and will continue to do so.

I honestly feel as far as nice and helpful members go, I rank near the top.

I am a HQ member always desiring to do more for the community.

I've been waiting for this recruitment for quite some time.

Why do you want to join The Red Lions?:

Red Lions motive to treat members equally, to share our knowledge with them and to post high quality ONLY, really attracts me to it. This is because, this has been my motive aswell since I joined. One of the greatest problems members are facing nowadays, is the increasing number of scammers, and Red Lions is working towards solving that aswell. That is another plus point!

Why do you deserve to be a Red Lion?:

I am a high quality member here, and have been around since more than a year. I have no scam reports on me, nor do I keep any grudge against any member, thus treating them equally regardless

If they are leet or uber. I have provided services for free, to ALL members(FUD crypting service), which shows that I do treat all of them the same way. I tend to keep the whole forum clean, by reporting the posts against the rules. By joining Red Lions, I can help in the marketplace aswell, and work towards the aims of your group.

Why do you want to join The Red Lions?: I'd love to have a token to show how hard I work to help out members. I will represent the group well.

Why do you deserve to be a Red Lion?: I have never had a scam report, never had a neutral, nor negative reputation. I constantly help out members. I act as a middleman for big transactions to prevent new members from being scammed. I have spent hours helping people out over Team Viewer, free of charge. I help out every time I get the chance. I have also hosted several giveaways, the MSP giveaway being the most notable. That's not including the miniature things that I give to people by request. I don't have much money to donate to Hack Forums, but I try my best to contribute in every way I possibly can. I think that I honestly deserve to be a Red Lion, because with or without the userbar under my name, I'll always have the heart of a lion, and do everything I can to keep this forum high quality.

Why do you want to join The Red Lions?: Tried to make an anti-scammer group but nooo xD

Why do you deserve to be a Red Lion?:Because all I've done alot for this community/

P.S

You have no warnings for flaming. - Yes I do but in 2 years of being here anybody would.
You have no sales trashing history. - I've warned people about sales and to be cautious but never trashed a sale.
You have no open scam reports, nor previous ones. - Previous ones but they were proven false, they broke the TOS of my software and got fucked.
You have over 300 posts. - 300 * 10.
You will respect our leaders, and the staff members. - Yes

Why do you want to join The Red Lions?: I want to be a part of a community that has the utmost respect from the members of HF. I'd like to be able to offer assistance to those in this group and hopefully be assisted in return, if I may need it. I want to be a part of a group of members that share the same views as I; to treat everyone fairly and equally, regardless of join date, reputation or post count. I want to be able to sport the Red Lions userbar knowing that me as well as my fellow Red Lions members are there to make the forum a better place.

Why do you deserve to be a Red Lion?: I feel that I am very helpful and quite nice (I do not sugarcoat things, though). I've wanted to be a Red Lion for quite a while because I've seen how high quality and helpful the members are, and I aspire to one day be one of those members. I constantly help around the forum when I'm able to and I offer support to those who are in need of it. I feel that as far as helpful members go, I'm one of the nicer ones on this forum (though, there are many, many other great and kind members). I feel that my posts are always HQ and I strive to make them that way, I hate seeing LQ posts and I'd dread being one of the members who posts LQ content.

Finally, thank you for this opportunity and welcome back, Nokia!

Skills: I have skills ranging from stuff as simple as modding on video games, to setting up various RAT clients. I have experimented with DDoSing a bit as well. I have been doing graphics for a little while now, and I am learning new things every day! My last huge skill I've recently picked up is e-whoring. I have mastered most ways you could think of for e-whoring. I've been doing it for about two weeks now, and I've brought in over \$300 total. I have purchased some things I've really wanted, along with donating to this website. I think I could help all members of the Red Lions with all of my skills.

Donated to HF?: I have donated a total of \$83. I plan on donating \$20 more soon via LR, and then another \$20 for the Emerald donator. Donated to HF?: (If yes, how much. If no, how much would you donate if you had to chance to do so?)I have upgraded 2 users (1 to L33T and Ub3r and 1 just to L33T.).

And have donated \$20 for a sticky in the Xbox 360 Section.

I would donate up to \$500 because I want to give back to Hack Forums and help it become better then it already is.

I have hosted many Giveaways and plan on doing many more.

Why do you want to join The Red Lions?:

I want to join The Red Lions because I would love to learn new knowledge. I know a decent amount of knowledge in a lot of different places but I would love to expand that.

I also want to share some of my valuable knowledge with fellow Red Lions members new or old.

Why do you deserve to be a Red Lion?: I deserve to be a Red Lion because I have a lot of knowledge that could help out a lot of members on HF in the Red Lions or not.

I have never had a open scam report on me or any negative reputation. I always do my best to answer anyones question no matter what it is. When Im put to a task I am always dedicated to get it done and to get it done the best of my ability. Also I am an active member.

I am in 4 other crews (RATs, Knights, Gamers, TechSperts) and I continuously post in their sub forum and I would be very active here as well.

Why do you want to join The Red Lions?: Red Lions is a HQ group where I feel I belong. My goals and the aims of the group coincide so I believe it is perfect for me, and I can offer the group great contributions. There is no doubt that I can contribute and help the Red Lions, and I would love to do so.

Why do you deserve to be a Red Lion?: I deserve to be a Red Lion because my posting quality is always as high as I can possibly make it. I'm always keen to help out other on HF and help out HF itself through donations, and I always wanted to be a Red Lion since the group was created. I am very active on HF and have a positive attitude towards helping others; shown through my presence in The Alliance, also. I believe I am very deserving of this group.

Thanks,

Intel.

Donated to HF?: (If yes, how much. If no, how much would you donate if you had to chance to do so?) I have only been able to donate a total of \$51. But donating to the site that your a member of is something I see as being extremely crucial. Helping HackForums is truly a big part as being a dedicated member; I definitely believe it is a must to give a helping hand to others that may or may not need it.

Why do you want to join The Red Lions?:I have been wanting to join Red Lions for a while now, but there was no recruiting open, now that there is I have a chance to prove myself. Being in Red Lions would be a great achievement to me. The main reason I have wanted to join the Red Lions is because it is truly a group I look up to and I greatly respect the members of the group. It would honestly be great honor to be accepted into this group.

Why do you deserve to be a Red Lion?: I believe I can contribute to Red Lions by keeping a friendly atmosphere and be as helpful as possible when coming to certain computer skills and programming. I am a new comer to the community compared to others but I have a lot that I can contribute to. Being a part of a group is a main goal for me while maintaining my being here on HackForums, along with being helpful to my community and supporting others. I think that I can bring more activity to the group by helping other members in certain topics that I mentioned. Without a doubt helping and supporting others is something I plan to maintain.

Why do you want to join The Red Lions?: I really want to get motivated from really good members of this group in how to succeed and make more donations. Secondly, this is group has the more respect on this forum than any other groups. I really enjoy to help out other members. I always been answering to people's questions even tho sometimes they are really annoying but i take them as a regular/serious question. I been wanting to join this group since the first day i heard about it. I would really want to learn more stuff from the other members of this group and make a bright future here on Hackforums.

Why do you deserve to be a Red Lion?: I'm a very High Quality member (at least i hope), i been contributing to the fourm, really nice to all the other members, giving out lots of giveaways and contests, soon will start giving donations as well as soon as i get some decent amount of profit in my pocket. I'm a college student and i live on loans and got a lots of bills to pay so its really hard to take some extra money out of my budget but i will try my best to contribute. :)

Thank you so much for reading my application. ? to the owner and this group.

Name:

Cory aka: Glassy

Age:

I'm 18 years old.

Skills:

Majority skills in SE, RATting, Online Money making and Gaming and minor skills in Coding and Web Developing. Also Bots, Keyloggers, Exploiters, Stealers, Booters, Web Mastering. I'm trying to learn more about hardware, I'm planning on getting parts for a custom build.

Good at the art of malware removal [though not graduated yet] I help in all problems in the White Hat Help section whenever I can troubleshooting a member's machine.

Accurate knowledge of HackForums' rules and hence a lot of accurate reporting.

Areas that I am most knowledgeable in: PC building.

Hacking tools.

Web Management.

Social Engineering.

Knowledge I have in regards to hardware and software:

I mostly can work with software (because this is my speciality in my school). But 2 or 3 times ago I have repaired manually some small stuff in my hardware. I am very experienced with hardware such as CPU, GPU, hard drives, and motherboards. I know a good amount of software, particularly video and photo editing related, however I definitely look to improve in this category.

Gaming:

Gaming is another one of my specialities. Everyone probably says they're "amazing" at games, but I was playing competitive Halo for a long time. I have been to LANs and Tourneys out of my country.

Donated to HF?: (If yes, how much. If no, how much would you donate if you had to chance to do so?) I haven't currently donated money to Hackforums as of yet. I have donated to members personally for their personal needs. Currently I have \$190 in my PP and a couple in my LR. I plan to donate soon this month all the money I have on it and enjoy the new donator awards. I plan to donate \$200+ by this month or early next month.

*These are just threads that I have made to contribute to Hackforums. The post I make are very supportive and help members indeed.

Why do you want to join The Red Lions?:

I want to join the The Red Lions because I want to be part of another high quality group and contribute more to the community. I have a lot of friends that are in the group and all of them are very high quality members, it would be an honor if I could be a part of The Red Lions. My goal is members success.

Why do you deserve to be a Red Lion?:

I think I deserve a chance in The Red Lions because I'm dedicated to helping out members in any way I can. I am also very active and will be highly active in the subforum no doubt about it. I believe I am high quality, and well respected. I have helped tons of members directly and indirectly. I have helped people clean their PCs too. I don't say no to anyone who PMs me for a nice friendly help. I try my best to help otherwise guide them to someone who can help. I help keep HF clean and I report a lot daily and have also caught plenty multiple accounts myself and I have helped several members create strong scam reports in the marketplace. I have good knowledge in certain areas and I would love to spread it. I have always been a solid member here. I have learned countless things, and I think this group will be a good way for me to give some knowledge back to the community. I would represent The Red Lions with HQ posts and an overall helpful mentality. Joining The Red Lions will also enhance my knowledge.

Thank you for considering me and I look forward to hearing back from you soon! Also Glad to have you return back here at Hackforums. ?

Regards,
Glassy

Why do you want to join The Red Lions?: I have always looked up to members of the Red Lions. By joining, it would be a great opportunity to meet some new people and perhaps further myself in the fields of computing. I would also like to be able to contribute to some of the projects that are currently being pursued within the Red Lions group such as the Marketplace Cleanup as well as the various other Marketplace projects.

Why do you deserve to be a Red Lion?: I always post in a high quality manner when it comes to grammar, thoughts, and layout. I have offered a fair bit to this site and would like to go one step further by joining this group. I accepted, not only would you be presenting me with a new opportunity, you will be improving the Red Lions by adding another knowledgeable and well presented member.

Thank-you for your time and consideration,

SpeedyApoc

Apart from above posts, i always help users who send me private messages, without hesitation, if i am in a position to help them.

Why do you want to join The Red Lions?: I always wanted to be a part of this great group. Have been trying since the first recruitment thread on 10th January. Also it will also help me to become more HQ and a better member on HF.

Why do you deserve to be a Red Lion?:

Am always willing and try to help the fellow members and posters. Never flame, troll, provoke or argue unnecessarily with others. Tend to keep a mature and calm behavior.

Never post a rude reply or talk rudely with others, either in forums or in messaging. Never post unnecessarily, only post when I think I can contribute to the thread and that too in a High Quality manner.

Am always reporting bad, useless and other threads that violate the HF rules and TOS in any way. I always want to see HF clean and thriving.

* I am always supporting other users, no matter new or old, if i think i can help them in any manner.

Also I certainly think that, I possess the qualities and potential to become a part of the Red Lions, as I think by becoming a part of Red Lions I would be able to contribute to HackForums in a more efficient and prolific manner.

Apart from that if you guys want to ask me anything else, feel free to do so.

Thank You.

Keyloggers: I used a lot of Keyloggers before I started Ratting and have a great knowledge about most of them.

Port Forwarding: I can Port Forward nearly each Router and helped some people with this.

Spreading: Spreading is no problem for me. In good days i make 100+ Installs. My main method is Youtube, but i use some other Methods, too.

Cryptography: I know how to make a server FUD and also have RE-FUD public crypters.

RATs: As i said, setting up and spreading and all that stuff needed is no problem for me.

Photoshop: Basic skills, can make many good sigs, but i need time to do it.

Some VB.net: Basic Skills, as i said made public stuff FUD again and i am working on my own Keylogger at the Moment.

Removing Malware: In the past i had to to re-install my computer a few times because of some malware. That was annoying, so i decided to learn a few thing about removing it. Now, i did to re-install my computer for a year because i succesfully removed all viruses.

Computing: I am able to build my own computer and set everything up. I am working in an IT company in holidays and i am learning a lot of stuff from them.

Gaming: I am a Hardcore Gamer. I am awesome in First Person Shooters, i am playing them since i was 12 years old. I know everything about the Games "Battlefield" and all "Call of Duty" parts.

Donated to HF?

I am an emerald donator; unfortunately I do not have the financial means to currently donate anymore.

However I have promised myself whenever I can afford it I will hold upgrade contests and increase the amount I can donate.

I feel that despite the fact my donation may be small it is the most I can afford and I have done my best to give something back as a sign of my gratitude, unlike a small minority of members who only become large donators for the donator symbol as a status booster in their own interests and not the community's interests in mind.

I donate what I can afford for the right reason, to help the continual improvement of HF, and support Omni's efforts in doing so.

My opinion is the the members who are modest regardless the size of their donations are the members who also produce and contribute the highest quality material.

PayPal Help Thread

<https://hackforums.net/showthread.php?tid=1304151>

Member Upgrade Competition

<https://hackforums.net/showthread.php?tid=1298568>

Why do I want to join The Red Lions?

The lion represents pride, strength and courage. Being part of the Red Lions is a sign of a member who encapsulates what it means to be a true lion, which I have tried my hardest to reflect in my personality within my contribution, advice and posts I produce on HF. The Red Lions epitomize everything I have done in my efforts and it is the group to help me improve as I aspire to even higher standards to make HF the highest quality forum possible. Because of these reasons I believe that the Red Lion group will be not only a reminder of what I have to uphold, but will help me achieve my own goals of becoming a better member.

Why do I deserve to be a Red Lion?

I do my best to reflect the values of Red Lions because I already see myself as a Red lion. Throughout my activity over HF I have done my best to make sure that it resonates the purposes and meaning of the group.

I make as much effort as I can to help increase the quality of posts within the community, by reporting and looking out for bad quality or wrong forum posts, giving advice to newer members or members unaware of the standards required on HF.

I understand that no matter how seasoned a member of HF you are, we still make mistakes or slip up and forget the etiquette required to represent yourself as a HQ member, that's why I have familiarised myself with the help documents and remind users of them when needed, I adjust my posts to always be in line with them, I also understand that no matter the member we all have issues we can become stuck with regards to this, so I will endeavour to help anyone I can no matter who they are.

I take the quality of other members very seriously, that's why I have taken it upon myself, as well as trying to increase the amount I am able to donate, whenever I can afford, I hold a member upgrade competition.

Member Upgrade Competition

I did my best in finding the highest quality member, who has contributed the most, whilst aligning them self's the rules of HF, through this competition by maintaining strict requirements, and thoroughly assessing the applicant.

By upgrading such a member, I hoped I could use them as a role model as well as myself to other members, to display the bar of quality required to become eligible for an upgrade, by showing them the standards expected from other HQ members within HF's community, which hopefully inspired them to attain better quality within their posts, more contribution and to align themselves with the etiquette and rules stated within the help documents.

I regularly save up my money to now be able to do this as well as donate, more often.

--

The idea of cleaning up the market on HF plays a large part within my time spent of HF, as I have already said has become a passion for me to assess scam reports to give an unbiased opinion on it, to helping all victims no matter who they are recuperate their money to the best of my efforts. This stems from my own experience.

PayPal Help Thread

I had fallen victim to countless scams via PayPal, because of my tight financial situation, I had to do as much as I can to get my money back, from learning from the experiences of other members and my own I eventually learnt how to recuperate from most types of scams via PayPal. I was aware that it is a huge problem within the market place of HF, so I created a thread where I put all the knowledge I had on PayPal, in response to peoples questions, I ensured that it was of the highest detail to ensure that everyone who asked me a question, got their money back.

I have done as much as I can to hold their hand throughout the process, to hopefully clean up the market from scammers as people become wearier of scams meaning less people fall victim, and more people get their money back through my attempts.

For me the epitome of donation, high values, the high standard in contribution to maintain a safe environment within the market place is reflected in what it means to be part of the Red Lions and my personality.

I do as much as I can to ensure give at least an hour of my day every day, wither it be on my phone or computer to contribute something to HF, I get involved in discussions or help other members.

Why do you want to join The Red Lions?: Well firstly it's filled with HQness, and if I want to be the best why not learn with the best? Also I've been around for some time and always tried to contribute the best I could and report the outlaws. I want to be respected, I want to learn to respect, I need to evolve my skills.

Why do you deserve to be a Red Lion?: Well I don't really know If I'm HQ enough for it, but as I'm pretty much respected within the RAT's Crew I though I would give it a try. I've given my best , if it isn't yet enough I'll just keep working on it. For now I've given myself to this community, to help it grow, bringing my friend, by letting it clean of LQ/spam reporting those who do not follow our rules.

Donated to HF?: Aside from upgrading myself to L33T and from L33T to UB3R, no, I have not donated. I consider those upgrades a form of donation though considering users often get other people to upgrade their accounts. In the future, once I'm actually employed, or I earn enough from what I'm doing online, I plan on donating for the Rich Bitch award and who knows, perhaps I'll eventually achieve the highest of the donation awards. HF has become my internet home and I'm 100% loyal and dedicated to helping it remain online forever. ?

Why do you want to join The Red Lions?: I'd like to join The Red Lions because it's a highly respected, very prestigious group that consists of all of the most trusted and loyal members of HF. Not only does being a Red Lion show you're a dedicated HF member, it's a great opportunity to learn from those who are willing to share their personal knowledge. Despite me not knowing much about hacking and things alike, I do have a vast amount of web development knowledge and other things that could be useful to those who are in the opposite position I am. I'd love to share my knowledge with the community as well as The Red Lion group.

Why do you deserve to be a Red Lion?: I deserve to be a Red Lion because throughout my entire HF career, I haven't broken any rules, scammed anyone, or really have caused anyone to dislike me. Although I'm one of those people who remain under the radar most of the time, I like getting to know new people and I'm a very kind, friendly person. I've been a loyal HF member for over a year now and I plan to remain one for as long as I have a computer and the internet. Being a Red Lion will improve my attitude and behavior here at HF even more since I want to be one of the most highly respected members here.

Name: J4mmy

Age: 17

Skills: I would call myself an advanced computing enthusiast (Not in all fields of computing but in major ones such as: Keeping computer clean from infections, Keeping your computer running fast

and smooth etc.) and also i do know about RATs, port-forwarding and Stealers (Not much about these or Keyloggers). I'm also at the moment trying to learn to SEO the proper ways and in my opinion, i've succeeded pretty well as i started yesterday and i have already made around 10\$ with Google AdSense and \$hareca\$h.

Donated to HF?: Nope i have not because i've been struggling to make money online as i've made only around 25\$ on the internet but i have a sales thread for my eBook which i am currently awaiting a Official Review for. After that if i make some money, i'll be glad to donate atleast 20\$ to HF for a start.

Why do you want to join The Red Lions?: Because i'm a generous person and i always say that "Sharing is caring" which is usually what i do, should it be just helping via PMs with particular subject (Such as port-forwarding, any setups that are in the limitations of my knowledge) or giving something that another member urgently needs to him/her.

Why do you deserve to be a Red Lion?: I see this as an opportunity to give as much as possible back to HackForums in terms of donating, helping out in the market section, keeping the site clean of scammers and such. It has been my long-term goal to get into Red Lions one day and i hope that i will succeed in my goal with this application. I have a strong belief that in Red Lions, i would learn alot new information and also to mention that i could share my knowledge with fellow lions! Also my horoscope is a lion so this must be a sign that has lead me into writing this application!

Why do you want to join The Red Lions?:

It's a high quality group and I like it a lot. The members in it are very high quality. I also like HF and I like to contribute to places where I am and places I like. Hack Forums is the only forum I have ever donated in and I feel it has been worth it and I will continue donating to Hack Forums as long it's existing and I'm a member of it. Even if I were inactive, then I would still try to contribute and help. I'm also helping a lot members and I'm a nice person and I find the group pretty nice and wants to join for that reason. I'm sure the group could learn something from me, as well I can learn something from them. I'm planning on making more contests for member upgrades soon and donate some more as well. I find the group interesting because it's a high quality group and I like that. I find this to be the only group really worth joining.

Why do you deserve to be a Red Lion?:

Because I'm a good member my self, well I see my self as a good member, but I don't know what others see. My own opinion is the most important, but others opinion is important as well and I would like to take their suggestions etc. what I could do better. I'm trying the best I can to contribute and help other members and I'm active the most of the day as well. I'm a nice person and I like everybody. I do not hate anybody, because I see no reason to hate anyone, we can all be mad at each other, but if there is a problem, then it can be solved. I have no warnings at the moment and I haven't got for a long time. I maybe have a lot -reps, but in this community it's hard to not gain any, because if you say your meaning against an ub3r and you're not self an ub3r then you get a neg rep, but if you're ub3r your self, then they won't -rep you, because they don't want it back. However they are not affecting me and it does not bother me at all. I'm here to contribute and help other members an to have some sparetime. I'm not here to argue and make fights. Last words would be I'm not only a nice person here, but as well in real life and I'm easy to make friends with as well I'm social. I would like to communicate with everybody in the group as well in the forum. I can talk about anything and help with any problems regarding life and such things. Thanks.

Requirements:

You have no warnings for flaming. - I do not have any warnings for flaming at the moment and I haven't got a warning for a very long time.

You have no sales trashing history. - I have not done any deals on HF yet and if I did, then it would never be something not worth it.

You have no open scam reports, nor previous ones. - I'm not a scammer and I have never scammed in my life. I don't like scamming, because it's like stealing, yet I have no deals either, so I can't have a scam report. I would never receive a scamreport, because I would never scam. I'm not

a person that's like that. I got a heart and respect for other peoples, no matter how much money they have or how they are. It's their money or product and I would never steal it. No matter the amount.

You have over 300 posts. - I have above 1600posts, which is fairly above 300posts.

You will respect our leaders, and the staff members. - I respect everybody on HF, as well as leaders, staff and admins and other members. I do not have less respect for any persons, before they have showed me less respect. However I have never tried that.

Thank you,
BaussHacker.

And of course supporting people in their threads, helping via PM's and MSN.

Why do you want to join The Red Lions?:

? Its a real honor to be in this group, its one of the best (probably the best) group at HackForums. Besides that the group contains a few of the best programmers around here and I would like to share the same user group, not only that, but also because the whole Red Lions group contributed so much to HackForums, I'd really like to be a part of that. You have many groups on HackForums, I never really cared about joining one but this group is just different. Its much better then other categorized groups. This one has standard requirements which not everyone has. Thats why I want to join this group.

Why do you deserve to be a Red Lion?:

? I deserve to be a Red Lion because I contribute allot, if it isn't by sharing my coding snippets or programs I worked on for a few hours it is by helping others. I don't care about people PM'ing me for help. Neither to support them on MSN (or Teamviewer). Since I joined HackForums I only did a few paid JOBS (Talking about WHOLE applications). I never asked money from someone to help them. Thats why I think I deserve to be a Red Lion.

Thanks for taking the time to read my application,

The-One

I want to join because I beleave that I could help and also learn from the Red Loins, I'm alway willing to help from day one and haven't stop willing to help since. I know that this group is a big part of donating to HF and i'm willing to give a big part of my online income in the name of the group to help HF, So if you guys pick me you won't regret it. Thank you

Why do you deserve to be a Red Lion?:

I believe I deserve to be a part of this exclusive group because am I am extremely loyal and intelligent. One of my main best HF qualities is the fact that I know I am HQ, and others definitely think I am. I can contribute useful information, programs, and even spare cash if any one of our members is in debt or anything similar. I am cool guy, I love to have fun, however at times I can be extremely serious. I am fantastic leader, and I possess some of the most highest qualities a leader can have. I always try my best to dedicate myself to something, whether it be a project for HF or for work, I will never give up until it is 100% done. I guess you can say I am a bit of a perfectionist if you will. I have helped many members out with issues they have had in the past to the best of my ability. I have purchased one member an upgrade with the little cash I had at one point. I promise to always stay active, and try my best to succeed no matter what obstacle stands in my way during my time in this group, (should I be accepted). I would like to join to contribute as much as possible, learn as much as possible, and I believe I am the perfect asset for Red Lion member.

If Nokia posted that you're accepted, are we then supposed to apply via the User CP? Or will we be added later once everyone has been reviewed?

Thank you. =)

I beat him to the PM, though. ;P

It looks like one more member was added.

Don't be discouraged if you aren't added right away, as you can see there are TONS of applications to go through...

There are some VERY nice applications guys, keep it up!

Yeah, you're absolutely right!

Some of these applications even made me wonder how the heck I got in.. Haha!

Keep up the good work everyone!

Dear Applepie,

I don't think so, most applies for groups are not via usercp but via like threads like these.
