Thread: [Most stable HTTP loader](#)

Hakurei Reimu - May 23, 2011, 12:33 pm

What is the most stable HTTP loader on the HF market as of right now?

Price isn't really an object.

BzVzKz - May 23, 2011, 1:12 pm

I have bs http bot and its quite stable, dl/exe rate isnt great though. Id wait for colt, its gona be the bomb!

Blackshades HTTP bot is generally considered to be the worst HTTP bot to come to Hackforums.net. Half the features don't even work, and the ones that do work poorly.

I agree about Colt, it should be worth it.

Try umbra loader or vortex

Mahamadou Issoufou - May 23, 2011, 2:06 pm

greetings my indian friend

i will code you one for \$750, pm me if interested

idonotcare - May 23, 2011, 2:28 pm

I doubt you can even code a simple downloader.
