Thread: [:::Crex's .PSD Pack:::](#)

.Astro - May 23, 2011, 4:40 pm

So I decided to just archive all of my previous works and a couple that were made recently to clear up some space. I decided to just upload it and share it with people so that they can also study them.

This pack includes a majority of my smudges, some of my text work, and other horribly made signatures :>.

Enjoy - Jayson.

Don't forget to post on the thread if downloaded.~

Should make a little tag wall as a preview for some of the signatures you are including in the pack.
