[font=Impact][size=x-large]The Red Lions Upgrade Contest!
Sponsored by: [Nokia2mon2](#)

Red Lions' Recruitment Thread: [Red Lions!](#)

It has been some time since the Red Lions have done upgrades.
As a mark of Nokia2mon2 coming back, the signature generosity for the site that he is famous for returns!

=====

The purpose of our group is to do the following:

- Contribute high quality toward the forums.
- Report accurate, correctly. We will report all offenses.
- Contribute to the cleaning of the market place.
- Reinitialize a scammers database. In this a list of all known HackForums scammers will be kept.
- Share knowledge of our knowledge, ranging from hacking to graphical design, computer cleansing,
- ...
- Treat everyone on HackForums equally.
- We tempt to donate as much as possible, as often as possible.
- We will support marketplace vendors with good projects.

=====

The Contest:

This contest will be to upgrade 10-20 fellow members of Hack Forums to L33T status!
Ideally, we would like the members we upgrade to share the same interest that our group does.

Terms of Service and Entry:

Along with the application, you are to make and dedicate a tutorial, gift, or programming project in the name of the Red Lions Upgrade Contest.
In the thread just mentioned, you must insert the Red Lions logo and write that it is for the Red Lions Upgrade Contest.
[There is an example of the dedication in the sample application if there are any questions about it.]

Each thread presented by the applicants will be put into the appropriate sections and compete against each other in voting contest by fellow HF members:
Tutorials with other tutorials, gifts with other gifts, etc.
This shows that uniqueness could make you more likely to get the upgrade due to a lack of competition.

[color=#32CD32][size=x-large]We want everyone who enters to use the following format that is in the code box:

Agree by typing your Username followed by a link to the dedicated thread for the contest:
Code I, (Insert Username Here), agree to these terms. Here is my thread dedicated to the Red Lions Upgrade Contest:

Primary Application:

- Code [b]Name[/b]:
- [b]Age[/b]:
- [b]Skills[/b]:
- [b]Link to a contribution you've made for HF (u must insert the red lions logo on it, and its must be new after that thread. and u must Write that u make the thread for this contest with its url): [/b]:
- [b]Why do you want to be upgraded?[/b]:
- [b]What makes you feel that you deserve to be upgraded?[/b]:

NOTE: If you do not follow this format, your application will be overlooked.

=====

How The Contest Will Be Judged:

As previously stated, the sections of voting will be divided depending on your contribution dedicated to the contest.

There will be winners from each of these sections.
The winners will be chosen by Nokia and members of the Red Lions.
Voting will be done through posts rather than poll after contestants are narrowed down.

All members will be allowed to cast votes once section winners are determined. Please do not post more than one vote!
All Red Lions votes will count as 3 votes, while all other members votes will count as one.
Please do not PM members asking them to vote for you.
I'm fairly certain this contest will be very popular and voting will gain the attention of many members.

=====

Sample Application:

Here is a provided sample from a fellow Red Lion.
Note: This is just an example, please don't simply copy what is used thinking it's the ideal application.

Why do you want to be upgraded?:

Although I have only been a member for a few months, I feel I have progressed far in my endeavors.

I feel that being upgraded would assist in being noticed and further contribute.

I do not currently have the means to donate my own money due to financial situations due to being in college.

What makes you feel that you deserve to be upgraded?:

I've contributed in giveaways and aiding my fellow HF brothers.

I also help out throughout various areas of the community offering my help both knowledge wise or by means of emotional support.

I feel I stand out from the crowd and deserve this honor of being upgrade by Nokia.

Note: "The thread or threads (the number u like) dedication for the contest must be a NEW thread! and u must insert the logo of the redlions and write that u make the thread for the contest with the url for the contest thread"

thx for wolves for making the contest thread

If anyone has questions about the contest that was exactly made clear, send me a PM.

I hope that a lot of good comes out of this.

Nokia wanted to make sure the people entering contribute to the community.

It's not too terribly much, maybe a little lengthy.

I suppose this will help weed out those not dedicated enough to fill out the application.

I've filled out group recruitment applications much more thorough than this and didn't find it unreasonable.

I think the application is very appropriate. I was simply highlighting how this group isn't right for somebody like myself.

I'm rather lazy when it comes to things such as this.

The application should ensure that people who are at least somewhat deserving are the ones who receive the upgrades.

Why do you want to be upgraded?:

I want to carry the L33T membership with honor, for me it's not just an upgrade to edit threads and go to a VIP section, it's a medal for those who deserve it. Every L33T and UB3R should be HQ members that help other members expecting nothing in return.

What makes you feel that you deserve to be upgraded?:

I compromise to serve as an example of how every upgraded member should be, and what better than being upgraded by a member of the respected RED LIONS rather than buying it.

I'll continue giving away both; goods and knowledge to anyone who needs my help.

Thanks for this opportunity.

I need this Upgrade for my knowledge to maximize my "hacking" skill, however, I don't have enough money to buy myself an Upgrade, and there are more important Fees to pay, like my Tuition Fee for School.

Why do you want to be upgraded?: As i've said, I need it to access Sections which are not available to Regular Users, and I don't have money to buy an Upgrade.

What makes you feel that you deserve to be upgraded?: I deserve it because I'll be using it in productive way, I don't really need the title of becoming "L33T"

Why do you want to be upgraded?:

I believe that an upgrade would make people have more respect for my opinion in discussions, and just more respect in general. Also winning this contest would certainly help me in getting noticed. :)

What makes you feel that you deserve to be upgraded?: Well, i've been quite a flamer during discussions, but after noticing that my behaviour wasn't acceptable, i decided to start becoming a better person, to start using manners while expressing my opinion, and also improve my grammar. Winning this contest would certainly motivate me. :)

Why do you want to be upgraded?:

Although I have not been a part of the HackForums community for very long I feel as if I have accomplished a lot and have given back. I deserve to be upgraded because I have the ability and perseverance to stay active, benefit the community while answering questions and keeping the forums spam free. I believe I can benefit from being a leet member and would work even harder if I was given this incentive. I want to be upgraded to better contribute to the HackForums community and to encourage other users to help me create a better HackForums where all members are accepted.

What makes you feel that you deserve to be upgraded?:

I feel as if I have contributed greatly to the HackForums community and deserve to be upgraded so I can benefit, along with HF. It would be a great honor to be upgraded by you and it would mean a great deal to me. I will continue writing and developing to make Hackforums the best possible place it can be.

Why do you want to be upgraded?:

I feel that since being a part of this community for about 7 months, I should now move on to the next level and be an upgraded member.

What makes you feel that you deserve to be upgraded?:

I would get more attention and importance from fellow members on me being a l33t.

I also feel that I would be able to take the right use of my additional powers such as giving out Reputation in giving it to deserving members.

I also have always wanted to be given l33t by Nokia as when I was new I saw a lot of people who were given l33t by him turned out to be really high quality members and have always wanted to avail such an opportunity.

I have also been active in the RAT section a lot and have always tried to help members.

I do not want to miss this opportunity.

Thank you for going through my application.

Haha I won! But I had already upgraded myself to Ub3r so its all good I guess (im SK Junior)?

Vexna - July 10, 2011, 11:50 am

The upgrad contest still open ?

Voice - July 14, 2011, 7:44 pm

Wow, nokia is the most HQ, and generous member on here :Thumbsup:

Wormag - July 14, 2011, 11:55 pm

Why is this still a sticky?

Mr Kewl - July 15, 2011, 12:19 pm

Cause maybe It's paid or Omni loves nokia.

Jinu - July 17, 2011, 3:54 am

Is still sticky is still open? :/

Stenography - July 19, 2011, 2:40 am

Congrats guys !

Can you do L33ts to Ub3rs contest too ? :)

Why do you want to be upgraded?:

I want to get upgraded because I have more option as a L33t. I also want to help in the VIP Area. The only thing can promise is to learn new things on hacking. I need this Upgrade for my knowledge to maximize my "Hacking Skill". However, I don't have enough money to buy myself because I have to pay my brothers and sisters school fee.

What makes you feel that you deserve to be upgraded?:

I think I deserve it because I'm a really active. I try to help the Community with some HQ Tutorials as I posted. Especially I Joined this forum and post Just 03 tutorials and got 17 reputations from other members in 04 days.

Thanks nokia2mon2 for upgrading contest to L33t.
