ZemilirKovac - May 27, 2011, 1:18 pm

UPDATE: 1500 ONLINE RIGHT NOW!

--

Prices

- ? 100 installs - \$2.50
- ? 200 installs - \$4.75
- ? 500 installs - \$11.00
- ? 750 installs - \$16.00
- ? 1500 installs - \$30.00

Accept paypal and LR only!!

MSN : YoGeneral@hotmail.com

Please make sure your server works and is FUD BEFORE purchasing. I do not recommend using a .net crypter, if you do, you may not get all your installs. I use a http bot so delivery is not instant. I cannot tell you how long they will last since these are installs, so if someone else botkills you, please don't whine to me. If you want something that lasts longer, get updates or do your own spreading.

izujelly - May 27, 2011, 1:21 pm

can these bots be transfered to blackshades rat? and what crypter do you reccomend?

ZemilirKovac - May 27, 2011, 1:23 pm

They are installs, and yes blackshades rat would work.

I personally have had buddrulez or virus1x do my crypting, they do a awesome job at it and I'd definitely recommend them.
