only xss permanent xss with a redirection it's really bad isn't pro men .. go learn how to hack

Maybe I'm wrong because it's look more off domain redirection to ftp folder "fileave"

anyways ...

Nice work mate, by the way what is that plugin on the bottom of the page? If it's music, I advise you to use flash instead :)
Cheers,
-hun

Did you snatch the DB?? Damn that would be sick

Concerta - May 29, 2011, 4:41 pm

The guys at infinithackers.net pretty much did it..

Thor Odinson - May 29, 2011, 6:01 pm

Hacked by the Inject Initiative... Just so you know, all he did was change the forwarding on the guy's Godaddy account.
