Thread: [300 Free Renders! HD! Vouches! 300 Free Renders!](#)

Dora The InternetExplorer - May 28, 2011, 6:28 pm

Hello HackForums. I decided I was going to do something nice for the community. So, I have gathered up 300 Renders and I am giving them to all of you for FREE.

I don't want to have to upload 300 Files manually so I am putting them in a .zip file I have a virus scan! Look at it if you need to!

Also, I did NOT make these renders. I got them from <http://pandorascanvas.com/gallery/album/2-renders.html>

But, I did edit them and I took off the Logos that were on ALL 300 Renders. It took about 3 hours. So please, enjoy!

It took a lot of time and patience to do this but I did and I hope you like it!

Proof that I made this download:

<https://gyazo.com/7027be0327cd3bc21dba585fb55fc7ab.png>

There are two(2)_ Downloads because the file was to big.

There are 150 Renders in each Folder.

I hope you enjoy!

I started editing all of this when I closed my last post!

That was like, 3 hours ago.

Enjoy!!!

Each of those renders except MAYBE the Halo chief are low quality renders, just saying.

That being said-thanks for posting this! Maybe some members would enjoy this.

Nice render pack but next time i would avoid taking the logo's off things that people spent a long time rendering. Thats all they do to show their hard work and you are kind of releasing them without credits. Its good for members here but i dont think anyone minds but its a real slap in the face to hard working graphic designers.

Also some previews would be cool. ^^
