Nice GUI !! Should have been a little more colourful!!

Can't really see the button's text too good, other than that-that is pretty sick. D: Never made a GUI design before, maybe I should try. O.o

I still dislike it =[

I think it's the scaling, everything seems too big when it doesn't need to be so big.

Try only using the space needed for the gui, it could be half that size. =]

It would look a lot more professional. ^^

O.ohmm.. i can clearly see the text? maybe your screen's setting isn't that light..? or just my screen is too light? XD

Looks bulky and very dark.
Not your best.

Nice share though, I guess.
