Dr.BrokenGod - May 30, 2011, 6:05 am

Simple but deadly. I like the codes. I think I will bookmark just in case!

+Pirate - June 1, 2011, 6:20 am

Added the fake BSOD

COmments anyone?

Zyx - June 1, 2011, 6:32 am

The BSOD is quite sucky. I've seen a better one around here, in the Batch section.
And if you have a RAT, you most likely don't want some shitty Batch scripts to do the job. It's better to code it all in the RAT.

+Pirate - June 1, 2011, 6:53 am

Just a thing for new people if they want to do it themselves... They can change it around and do other sutuff to it too. Just a small "collection"

What is the link to the BSOoD by any chance?

Can't really remember. Try searching for it. I saw it like 4 months ago.
