Thread: [My first every battle....I fail at GFX..please battle me :D](#)

Cyber-Security - May 30, 2011, 4:33 pm

Ok I thought it might be cool to enter one of these battles. But I will not fight super good GFX Artists because I will obviously lose. I need someone at my level. Noob level. ?

Anyone?

Whoever decides to battle me, we will set everything up (rules, guidelines, etc....)

I can try, I'll probably suck since I haven't made anything in months.

Even though your reps show that you are a fabulous graphics designer, I accept your challenge. Rules? :D

I love how you just ignore my post. Rep doesn't mean anything on HF either. He isn't that good. :P
