Thread: [\[NEW\] Free Text + Render/Graphics Sig, \[This Thread's Service Theme : Hot Red Text\]](#)

Cyber-Security - May 31, 2011, 2:05 pm

Ok, so this is my first ever attempt at making a graphics service. I thought I might help some people out for a chance. ? And I have thought of a new idea. Each thread has a different edition/theme. This threads theme is hot red. Here is what the finished product looks like (this sample has no renders) :

Application:

Code Text =

Render/Graphics (I will choose if not provided)=

Great sites to find graphics:

<http://www.iconarchive.com/>

<http://www.deviantart.com/>

Please vouch if you think this is a good service. This is my first attempt. I hope you like it!
?

Anyone? I know I suck at graphics but just give me a chance. :(

Well so much for trying. :(Any feedback?

Not even one person comments...this is a ghost thread :(

I thought this would get at least one applicant. I was wrong. :'(

I've done other applications but here:

Text = Rune-Quality

Render/Graphics (I will choose if not provided)= Make it related to Runescape please

Text:The Kid Forumer

render:any

text color:white/blue

your sig looks great! The icon before the text can you put like that on my logo but with diff. Color!

Heres my trash forum can you copy the color of it to the logo

Vouch for this guy! The logo was epic!

But can you change carrot on the first logo with the computer? Thanks again
