Thread: [Dark DDoSer or just DDoSer ?](#)

**Master\_Bass** - June 1, 2011, 9:41 am

Hello. I saw forum topics, where they offer to buy Dark DDoSer and just DDoSer, and I have a question. What is better? Dark DDoSer or just DDoSer, and preferably why?

PS> Please write in normal English, no reduction of words, but it was hard for me to read) I'm from Russia and my English is not very good.

From my knowledge DDoSer is better, due to the features and stability. In my honest opinion I would go with Xr, it's one of the most stable.
