We are looking for members for a new gaming community powered by MyBB and some notable staff members.

I guess all of you have been playing video games, or are playing now, either console or PC games. You know that notorious feeling when you lose yourself in your secret world, with all those creatures and adventures that are just waiting for you to challenge.

That's right. You came to right place!

This is your station, your home. Our goal is to collect all of you gamers in one place, Gaming Pit.

It's a good choice of a URL and has a custom theme. Currently, things are being edited and fixed, but in due time, all will be ready.

We are a new community and I hope we will grow fast.

Gaming Pit isn't only about gaming though. The site is here for any form of discussion and if you have a suggestion for a section to add then please post a thread in the suggestions section.

Also, there is more sections like Music, Graphics, Anime etc. so find yourself in the forum you like and enjoy.

So now we are officially open. that's it, and read our rules before posting.

www.GamingPit.net

Thanks for reading and have a nice stay!

Although the theme is based off of the MyBB Gamer theme, I very much like how you've modded it to suit your topics. I specifically like what you've done with the header links.

Looks great, hope your community will reach great heights ?

I'm not trying to be a dick, but logo resembles the old GamingBay or something like that, it has same theme. Basically just changed colors.

the logo was made for me so was the theme its not the same to any gaming site.

Boing - December 17, 2011, 1:45 am

Nice theme you got there!

But you should let guests see the threads names or number of threads there are in each section since it's kinda a turn off.

B4R0N - December 17, 2011, 6:02 pm

Thanks for you feed back i hope more gamers join us

Innovate - January 26, 2012, 9:30 pm

It feels like you're trying to cover way too many topics. Not too many boards can get away with this, and I highly recommend you streamline the forums to gaming/graphics until the need and demand is there, then you can eventually expand to other topics.

Attempted the one I wanted but it was already registered :(

dramatic - February 11, 2012, 2:30 pm

That is a very nice site...I love the layout you have going on it looks great.

Philly - February 13, 2012, 6:46 pm

That is a REALLY nice theme. Who made it if you don't mind me asking? Also the only thing I can really see that should be fixed is the tabbed menu. The colors don't match and hurt peoples eyes.

TheHostMonster - February 14, 2012, 10:03 pm

I vouch for this dude. my good friend, and apply its really with it.
