Thread: [\[Source-VB.NET\] Custom Color Picker Dialog](#)

idb. - June 10, 2011, 10:26 pm

I was working on the PM portion of HFC (<https://hackforums.net/showthread.php?tid=1356184>) and decided I needed a nice color picking component that somewhat emulates the one on the PM form of HF.

After googling all over the place I found nothing as far as an already written component goes. I did however come across a great example of something like what I wanted written by Johannes Wallroth (<http://www.c-sharpcorner.com/UploadFile/jwallroth/ColorPicker12022005021718AM/ColorPicker.aspx>). His component had almost exactly what I wanted aside for a few small things. It was also written in C# so I had to port it and then edit it to do what I needed it to.

The results is what you see below. I've decided to release the source incase anyone wants to update it and make it better. All I ask is that if you do, please post here and show me your results! Don't be too critical... I haven't made a custom control in a loong time. haha. Hope you guys enjoy it.

Very welcome :)

By the way, if anyone finds any bugs/fixes please post them here so I/we can all stay with the most updated and efficient version of the component.

Eternal Five - June 11, 2011, 3:36 am

Ha this looks really cool! I will definiatly use this!

I just updated the download link because I found another small bug that I felt needed fixing. But yeah, feel free to use the control. That's why I put it on here.

deprecate ColorDialog

Thanks man :) Can't wait to see it in one of your incredible projects :D

no1me - June 11, 2011, 3:11 pm

nice share much better then color dialog

Support. - February 4, 2012, 3:09 pm

Same story idb, multi-upload must have your picture on a dartboard in there main office or something. Again, I'd be very grateful for a re-up, Thanks.

MoBaT - February 4, 2012, 3:14 pm

That looks really well. I will be sure to use it in some project in mine. Would also be good in screen captures.

Devilmaycry - October 22, 2012, 12:45 am

Link Dead :S If anyone can reupload that would be good !

Thanks anyway :D

+Bourbon - November 3, 2012, 10:04 pm

Could you please re-upload this IDB. It's a great control and I want to implement it into my project.

I don't have it anymore :(Perhaps someone will be nice enough to reupload.

no1me was nice enough to reupload and PM me the link.
