Scanner text effect. [Video]

I made this tutorial, in this video I'm showing you how you can let a text been scanned with PHOTOSHOP.

[Video: <http://www.youtube.com/watch?v=XWBG7o1Aa9E&feature=relmfu>]

Enjoy the video, if there are questions just ask me!

Awesome tutorial, but is it possible to upload this to Facebook?

I know animated pictures is in .gif format, and that Facebook makes all pictures .jpg format, but i've seen people that have animated pictures on Facebook.

I don't think it's possible, never seen it before :s

If it's possible, then I have no idea why how :s

I'm sorry I can't help you with this, if I find out how I'll tell ya!

Its nice that you changed what the text was getting scanned by. Most people do the white stroke reflection, and it gets kind of boring.
