Thread: [\[Super DoS\] Powerful DOS! *Perfect for online Gaming!* \[/Super DoS\]](#)

Tørrrent - June 13, 2011, 11:34 am

Welcome to Torrent's Super DoS Thread You will need Putty to connect to this SSH to make the DOS attack. A download link to putty is down below. What are the specs of the server you will most likely ask.

So here they are!

Spoiler [\(Click to View\)](#)

Location : Ukraine

256MB guaranteed RAM

512MB burst RAM

30GB HDD

Unmetered Bandwidth

OS : Linux Ubuntu

Proof of ownership :

Spoiler [\(Click to View\)](#)

What are the prices?

Depends on the currency :)

USD is 2.50\$ Monthly and, 10\$ LIFETIME!!!

Pounds will even out to 2.50\$ or, 10\$ via Google currency exchanger.

Payment Methods!!!

PayPal! My PayPal e-Mail is : Nav.y@aim.com send as gift!!!

The way on how to DDoS people when you're on the server is :

perl dos.pl (IP) (PORT) (PACKETS) (SECONDS)

So like this : perl dos.pl 127.0.0.1 80 65500 1337 <-- Example.

Download putty [here!!](#)

Also you will need to just put the IP in the first box when you open PuTTY.

PM ME WHEN YOU HAVE PURCHASED WITH PAYPAL EMAIL

[/size]No refunds whatsoever, if I feel like you are using a fraudulent PayPal or credit card, I will refund you with 72 hours and, you will be notified on HackForums.net
