Thread: [\[TUT\] How to eWhore on Craigslist for Noobs + How to avoid Ghosting \[TUT\]](#)

locust4554 - June 14, 2011, 2:39 pm

IM going to walk you through the basics of ewhoring and how to do it on craigslist and avoid being ghosted at the same time so you can maxmise your profits and avoid wasting your own time.

Step 1: Go to craigslist and choose a common city to post in
the best cities are the following in the states and the uk

UK

- london
- manchester
- birmingham
- edinburgh
- aberdeen

US

- los angeles
- new york
- boston
- houston texas

Step 2: go to w4m
casual encounters > no strings attached fun

post title: selling nudes! ;)

content: Hey guys!! as the title says selling some nudes which i took earlier today, got about 100 pics in total including 40 i took this afternoon so if your interested snd me a msg and ill get back to u asap!! ;) x x
thanks

Enter your email address and upload a couple of pics (non nude)

Step 3: sit back and relax and wait for people to start emailing you interested in the nudes
recommended prices

\$20 90 pics

\$10 40 pics

or just use your own judgement

Now you may notice after a while you start getting ghosted, this means your ads are not showing up on the listings even though craigs list are telling you that they are posted.

To do this ensure you do the following things regulary

1 - change your email

after you made 2-3 posts change your email and use a new one

2- change your ip

- again after you have made a few posts change your ip i usually do this after about 3 posts

3- change the thread title and the thread content

change it so the title changes regulary so something like this

selling nudes! ;)
sellin nude pics!
personal nudes for sale x

also be sure to change the content of your ad as well.

Generally if you follow these steps on this post you should be making yourself some decent money.

Thats all for today

Looks good man, I havn't tried Craigslist yet, but I'll be sure to follow this method when I start.

locust4554 - June 14, 2011, 2:44 pm

streetracer608 - June 14, 2011, 3:35 pm

Your ghosting tips helped me a lot. I just finally got passed that crap and got flooded with emails once again.

jactherabbit - June 30, 2011, 3:36 pm

haha craigslist. good time, good times.

olivier93612 - June 30, 2011, 4:27 pm

Is it normal that Craiglist ask me my phone number for verification when I want to post a thread ? :(

MessaNoir - June 30, 2011, 10:22 pm

Great information. Thanks for making it all sound so simple. Think i'll be giving Craigslist a longer look now. haha. And yes it is normal for Craigslist to ask for a phone number to verify the account....though it seems to be a random check

Echo21 - July 1, 2011, 8:37 am

Wow, you sell 40 pics for \$10? I've sold 15 pics for anywhere from \$15 to \$25. A video is included though... Either way good tut. I've been getting ghosted a lot lately. Just have to remember to change my IP

I pray this works lol I've been trying to make money for a while now

lollypop123123 - February 21, 2017, 8:52 am

Craigslist removes my page when I make one,
So this doesn't work for me tho

duttyhantz - February 21, 2017, 1:33 pm

craigslist is fucked in the head..why allow a system so people can flag and the ads get removed even if its a legit ad.I tried dating ewhoring with my own dating website and said i was new in town and wanted to meet up without any luck.

78roco - March 2, 2017, 9:27 pm

Yep, the flag and the ghost + phone verification, is too much for e-whoring i think, but the traffic is very good if your post still alive

Futurefreak - April 2, 2017, 3:07 am

Does anyone know if this method still rock? I'm new to Ewhoring generally but the tutorial seems so simple that I can easily follow it.
Anyone tried this out lately?

Dude what the fuck; this is literally your first post and you bumped a thread FROM 2011 ? .

CL removed the casual counters section entirely. Dont come on here and start bumping old shit without even doing basic research.

Wish I could -Rep people. ?

Sorry, boss ?

I saw some recent comments up there and thought anyone might still be following the thread.

Edit: I must be a fool for not checking up before commenting. I've just read that now. Sorry.
