Thread: [Release, Destiny Theme](#)

Brettly - June 15, 2011, 10:41 am

Destiny theme was made by me, Using the Tutorial made by AeonHack.

You might of seen my other thread called, Rate My Theme and I have now finished the theme and am releasing the source here.

Looks great bro.

Going to download it and see if I can use it in a later project.

Thanks!

The buttons have too much of a gradient on them, but that's just me.

Mr. Cash - June 15, 2011, 10:47 am

Yeah I think the buttons also have too much gradient. Good job though!

Brettly - June 15, 2011, 10:47 am

^ Thanks for your comment but to me they don't look like they have a lot on them.

Matt AH - June 15, 2011, 10:48 am

Well if you notice on the bottom of the button its a fading black, and then goes onto a black background.

It just doesn't go well, but it's up to you to change it.

Brettly - June 15, 2011, 10:49 am

Yeah I now see what you mean.

I might change it into a lighter black like maybe 25,25,25 but ill see later.

It does look better.

If you find where it says `Destiny_Button` scroll to where it saw `color.black` and change `color.black` to `Color.FromArgb(25, 25, 25)`

Matt AH - June 15, 2011, 10:50 am

The black background looks good, maybe get another shade of blue on the button, so it's basically

mixing the blue color in.

Look at above comment from me.

rating 5 stars for this awesome theme..

Brettly - August 10, 2011, 12:49 pm

Thanks man.

Didn't expect to ever see this back on the front page.

Svarteman - August 10, 2011, 12:51 pm

Nice theme. I love to combine blue/aquamarine and black.

Brettly - August 10, 2011, 12:52 pm

Haha I just randomly thought of a futuristic theme and made this.

Nice theme, I might use it on some of my projects ;)

Brettly - August 10, 2011, 4:36 pm

Love you to .bLaZeD haha. (dick)

Sapientia - August 10, 2011, 5:01 pm

Looks very nice, and i love the aqua effect it gives.

Pretty nice theme but i dont really like the blue :/

try a lighter blue next time ?

Brettly - *August 10, 2011, 5:21 pm*

I didn't really want a very light blue so...
