Thread: [PM Me - Site to be Crashed - \\$30-50 to Pay](#)

zachuk - June 17, 2011, 2:05 am

I have a website I want to take down. I'd like to rent a botnet or hire someone to do it for me. I can pay \$30-50 - I just want the site crashed. PM me. Is it possible to delete the website from their hosting too or screw up their database?

zachuk - June 18, 2011, 2:18 am

Not sure if this is allowed, but I am ing this.

MatiasMunk - June 18, 2011, 3:12 am

30-50\$? That is way to much..

You could buy your own lifetime booter for 10\$ that can take any website down ...
Maybe even cheaper..

It is about \$30 + an hour to DDoS a site, depending on how large it is and what kind of protection it has.

Maybe even cheaper..No you could buy a shell booter for \$10 that may take down the site for 1 min or so as they have a maximum flood time of like 120 seconds where as a botnet can keep flooding to hold the site down therefore not \$10

zachuk - June 18, 2011, 9:50 am

Can any of you do it? Let me know please.

Hello World :) - June 18, 2011, 9:55 am

I can do it !! PM ME!! MSG TO SHORT FUC!

Idiots.. Wrong.. You can change max floodtime on a booter with whole different scripts, so you can hold it down longer time with a booter aswell -.-'

Hammadd - June 18, 2011, 1:43 pm

PM ME...

I 'll Give U \$30 :)

??h™ - June 18, 2011, 2:29 pm

I could slowloris it and keep it down for days (depending on how big it is).

The Invoker - June 19, 2011, 2:18 am

pmmed you. Done . Check it
