Thread: [Blackshades - Complete Overview](#)

Puissant - June 17, 2011, 2:22 am

Today i'm going to be giving you a detailed overview of Blackshades.

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Black_Shades_Border_Lifestyle.jpg[/img]

Blackshades is a client that allows for Remote Administration of another computer.
(Please note it is not right or ethical to use this program for unauthorized control of another person's computer)

In this Overview I will show you many of the tabs and features. Please note though I am not showing you ALL of the features, just a quick look! If you want to see more features leave a comment saying so and i'll get to work on capturing EVERY feature so you can thoroughly see why you SHOULD buy Blackshades.
(throughout the overview I blacked out some information, it is personal information that I do not feel safe letting out on these wonderful forums ;)

Under each image is an explanation remember to read them! :)

Lets get started!

Connections

Main Page

Spoiler [\(Click to View\)](#)

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Connections-MainPage.png[/img]

From here you can pick and choose witch bots you want to control. You can tick "Select Random" to randomly control a bot from the right click menu shown below.

Right Click Menu

Spoiler [\(Click to View\)](#)

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Connections-RightClick.png[/img]

All the options in this menu that I dont show you below this are pretty self explainitory! If you dont know what they do, you should start off with DarkComet before you buy Blackshades!

Quick Search

Spoiler [\(Click to View\)](#)

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Connections-QuickSearch.png[/img]

Quick Search is used to, well... Quickly search through your millions of bots to find a specific one ;)

Map View

Spoiler [\(Click to View\)](#)

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Connections-MapVeiw.png[/img]

Map View is still a WIP (work in progress) so be patient with it! It often dosent put you or any of your slaves on the map. But if you get lucky you may show up!

Columns

Spoiler [\(Click to View\)](#)

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Connections-Columns.png[/img]
Columns is used for selecting the columns you want to show about your list of bots.

Filter

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Connections-Filter.png[/img]
Filter is a more advanced search. In it you can search for bots using any of the columns!

Copy

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Connections-Copy.png[/img]
Copy... Well Copy, copy's the information u selected from the bot you have selected.

Surveillance

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Connections-Surveillance.png[/img]
Surveillance is the main function of most RATs along with File managers, Blackshades has reasonably the best live logger and key logger out there! so trust me you wont be disappointed!

Network

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Connections-Network.png[/img]
Network has many functions, most of witch are not used very often(Other than website visitor ;)! But they are still a good tool to have sitting there!

System

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Connections-System.png[/img]
System is another main tool for most RATs here you can manage files, edit registry, and end processes.

Misc

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Connections-Misc.png[/img]
Misc is mainly for fun a malicious type work, Do be careful though most of the tools will get you caught if your not cautious!

Server

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Connection-Server.png[/img]
Here you can update, modify or remove your server from the bot's computer.

SEE NEXT POST!

Create Server

Main Page

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/CreateServer-MainPage.png[/img]
This is the "Create Server" tab here is where you create the server that you send to your "clients"

Server Settings

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/CreateServer-ServerSettings.png[/img]
Here is where you enter the specific settings you want for your server! Heck they even give you example settings if your having trouble.

Create Station

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/CreateStation-MainPage.png[/img]

Here is where you create a station, You may be wondering what a station is so i'll tell you! A station is used for when you think you are going to get back traced. What you do is u sent a 2 servers to bot 1 and 2. You want to watch bot 1, but he is getting suspicious so what you do is install a server on bot 2. and all connections from then on go from bot 1, to bot 2, then to your computer! so it looks like bot one is the culprit!

Statistics

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Statistics-MainPage.png[/img]

Statistics pretty much shows you connection history and what not. Nothin to special :P

Settings

Connection

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Settings-Connection.png[/img]

This is basically where u enter your connection port and transfer port. 2 ports are used 1 for connecting, and another for remote access. An exclusive feature to Blackshades is async mode (tick choice bottom right) This mode makes it harder for bots to trace and or detect you. what it does is only refreshes the server (connects to the bots) like every 5 mins, until you start to control the bot then it connects till your done!

Basic Settings

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Settings-Basic.png[/img]

Here you pretty much set basic settings :P

Misc

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Settings-Misc.png[/img]

Here you se settings that wont effect much of the program.

Database

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Database.png[/img]

This is used for connecting to mySQL databases.

Tasks

Tasks Tab

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Tasks-MainPage.png[/img]

This is where you can set task to happen even when your not at your computer. It automates a lot of processes to make life easy! (some of it)

Drop Down Menu

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Tasks-Dropdown.png[/img]

This just shows what you can set.

Transfers

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Transfers.png[/img]

Transfers shows a list of recent transfers! :P

On-Join

Spoiler ([Click to View](#)) [img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Onjoin.png[/img]

Here you can set things to happen when you connect to a bot.

Aesthetics - June 17, 2011, 2:24 am

Wow! Really nice informative tutorial. Thanks!

Puissant - June 17, 2011, 2:24 am

Alarms

Alarms Tab

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Alarms-MainPage.png[/img]

Here you can set an alarm the goes of when 1 of the things in the next picture happens! Useful for making sure slaves are not close catching on to you! OR for when you know you need to get on to watch webcam ;)

Drop Down Menu

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Alarms-DropDown.png[/img]

Things you can set alarms to.

Plugins

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/Plugins.png[/img]

These you don't much need to worry about unless your doing un-needed stuff!

If this help you in any way, or taught you something please comment! :)

? Have a VERY nice day! ?

(Jun 17, 2011 02:24 AM)Apothecary Wrote: [\[CITE\]](#) Wow! Really nice informative tutorial. Thanks! AWWW i was so close to posting the end): lol anyways look right under your post for the last few pics :) thanks for reply!

Mesmaroth - June 17, 2011, 2:27 am

Nice man always wanted pics of Black shades before buying thanks.

p.s You should display a link to official site so others can buy.

tylera - June 17, 2011, 2:28 am

Great HF member, Wonderful tutorial, thanks for taking the time to do this.

one1one - June 17, 2011, 2:29 am

Finally some HQ posts by new users Thanks btw whats your background

Puissant - June 17, 2011, 2:29 am

(Jun 17, 2011 02:27 AM)Mesmaroth Wrote: [\[CITE\]](#) Nice man always wanted pics of Black shades before buying thanks.

No problem I always noticed there were never any pics or well.. anything much about Blackshades when I went to buy it. So I figured people could use this :)

Coton Pker - June 17, 2011, 2:29 am

I rather enjoy the fun manager on BS Net.

It's a really great way to mess with people :D especially the text2voice option on it.

Puissant - June 17, 2011, 2:31 am

Slut! D:

Also very HQ post for a new member(;

?us?ness - June 17, 2011, 2:37 am

Very helpful this is good for future buyers!

Puissant - June 17, 2011, 2:40 am

one1one - June 17, 2011, 2:47 am

What was your background from what I could see it looks good

Puissant - June 17, 2011, 2:51 am

This is my desktop :D

Spoiler ([Click to View](#))

[img]http://i1137.photobucket.com/albums/n518/TeamSt33le/1fdsg23424r242.png[/img]

Dont be jealous now ;)

Kuddie - June 17, 2011, 9:37 am

Thanks for the awesome tutorial dude. Been looking into Blackshades and Lost-Door, but after seeing this tutorial I think my money should go into this one..

Cheers!

Puissant - June 17, 2011, 9:39 am

Cheers!

No problem! And trust me i'm almost positive this beats Lost Door, Hands down.

Thanks for the reply!

d00mmenz - *June 17, 2011, 10:24 am*

nice! great for people who can't make up their mind wheter to buy it or not

[Delta] - *June 17, 2011, 1:20 pm*

nice TUT ..

THE HEADMASTER

Puissant - *June 27, 2011, 1:07 pm*

I've decided this is lacking alot... so who better to describe the features of the RAT than the creator
this is a pdf i found with the files...

<http://dl.dropbox.com/u/30744629/Blackshades%20NET%20User%20Guide.pdf>
