He has 3 accounts on the forum but he wasn't really smart and kept linking to the same msn address with all of them.

Quote:9. Multiple accounts will not be allowed unless you are reporting your original account as hacked. Ban evading will result in the permanent closing of your old account and new accounts. No exceptions.

[opera1996](#): -9 rep account, account still active

Our original trade was oron, fileserve & filesonic premium accounts for two RDPs, one as admin. Both however were not functional after the next day and of course neither had admin permissions.

I tried to send him a couple of messages to see how he would react but he just kept playing stupid. Latest conversation:

He has also started selling the premium accounts I have given him in his latest posts with his various accounts.

Another person he has scammed:

Later you can see he tried to trade this person's MU account with several of his other accounts on HF:

Notice that the two pictures are the same

Btw, he also tried to infect me with a crypter which was really a virus but that didn't really work out for him ;).

Hopefully it's enough to get his accounts closed and if not, at least people will be more careful before doing any business with him.

Cheers.

What a cunt, good report.

I do not own any of those other accounts and have never scammed anyone. This is pretty fucked, can a staff member or an admin please investigate this. Also I was asked by another member to make that thread selling the file-hosting accounts... I will get proof of this as soon as I can.

EDIT: I removed the thread... This is really fucked up. I did that cunt a favor and I got fucked up!!! I haven't even received the money he promised.

Ahh ok so he played you too. I removed your name from my post, leaving his other three accounts only.
