Hello HackForums Community, i am offering a free service to help the Beginners and the noobies to enter the dark world of Hacking and to setup their first Keylooger or RAT.

[img]http://img101.imageshack.us/img101/9387/iamawesome.png[/img]

[img]http://img28.imageshack.us/img28/2845/terms.png[/img]

- You should had already installed the Keylooger/RAT on your PC.
- For keyloogers, you should have a Gmail Account.
- For RATs, you should know the pass of your Router for the port forwarding .
- You should have TeamViewer .

Notice : I will work with any version of keylooger/RAT you had already installed.
This service is not given with Crypting service (Sorry) .

Contact me here or Add me on MSN (PM me to get it) .

Notice : This a free and legit service so there is no download. Every thing will be controlled by YOU (Just to avoid persons who thinks that i am trying to hack you)

==> I am offering this service just to gain Respect and Trust from the HF members and to prove that i am a Legit and Generous member here . Thanks !!

salman-hackers - October 31, 2011, 12:22 pm

hello give me the key logger contact me at hbk_imran@hotmail.com ? are pm me

Znitch - October 31, 2011, 3:26 pm

Hey, I'm kinda new to this and trying to find a place to start.. i've already read/tried out some of the things i've found on the "newbies section" Would appreciate if you would help me :)

Lukas - October 31, 2011, 3:32 pm

@salman-hackers, you should ask a little bit nicer? It's not nice to command something if someone's offering you it, anyways thanks xXxRay for this service, good job.

JonSnow - *December 4, 2011, 1:49 am*

im new to the world of hacking i dont even know how do get a keylogger can someone plz teach me?
