Why am I doing it for free?

Honestly, I'm doing this for free to gain some reputation and vouches(Hopefully), I am also doing it to gain more experience in graphics design, As i would class my self an intermediate.

How long will it take to complete?

This can take from 5minutes to 24hours to complete depending on me being ON/OFF or Busy or the design im making.

What if im not satisfied with my design?

If your not satisfied with your design, than tough as it is a FREE design, so I'm doing this out of my valuable time, so be grateful. Thanks :)
