Hey I just took my regents and i wanted to know the answers. So i went online and saw that it was password protected. I cracked the password. Now the I have the answers :)

With this password you can get into the scoring key and the rating guide.

Nice job.

Howd ya crack the password?

Pillows - June 19, 2011, 7:13 pm

You brute forced it didn't you?

Edit: Nvm since you said you cracked it.

Fortitude - June 19, 2011, 7:21 pm

lol a brute force would take years over the internet... i would have to do a dictionary attack. and who would have a pass like that in there pass list lol. but all i can say is that i didn't bruteforce it or dictionary attack it :)

Pillows - June 19, 2011, 7:47 pm

Can I get a hint? Is it a vulnerability in the website or in the pdf?

Fortitude - June 19, 2011, 7:48 pm

bobberman09 - June 23, 2011, 11:45 am

can u put the password to geometry regents place, the same password doesnt work

- L - January 27, 2012, 4:25 pm

Brute-force is not impossible... Download the PDF and set the brute-force to assume it's 6 Character Alphanumeric with no Caps (based on OP's password) and voila... trying it now... should take a few hours max

mramlall - June 14, 2012, 2:32 pm

The only reason that the password isn't working is because this thread was posted almost a year ago.
