Thread: [\[Released\]](#) • [Kyle Bot Msn Bot V1](#)• [\[Mirrors Only\]](#)

Trey Johnson - June 19, 2011, 7:14 pm

Here is the Original Kyle Bot, un-edited, non-fucked with java bot source. The member [SmartyOwnage](#) With this thread:

Code <https://hackforums.net/showthread.php?tid=977270&highlight=ibunny>
Stole his source, and edited some stupid shit inside the batch file. I really don't think SmartyOwnage is an actual java coder. Considering he fucked up the massadd's. But, this file has working massadd's and freezing, but it does not load all your mass emails all the way. Higher you get in mass adds the slower it picks it up.

deiski - June 19, 2011, 7:18 pm

What does it do?

is it a Bot that like you can talk to..

Or just a freezer and shit.

John. - June 19, 2011, 7:18 pm

Does the freezing actually work? Locking them out of Hotmail and Windows Live Messenger completely?

Trey Johnson - June 19, 2011, 7:26 pm

Yes the freeze & mass add's work successfully! Here is a list of the command's!

;restartBut can't you get around that by just entering the recaptcha? Also I bought iBunny V3 off SmartOwnage but I'm pretty sure he scammed me cause I sent the \$10 he requested then we chit chatted while he fixed errors and then he just suddenly went Away then Available then Offline. I PMed him to see what was going on and we'll just see what's going on. Either way I have PayPal Receipt and Chat Logs.

Trey Johnson - June 19, 2011, 7:31 pm

(Jun 19, 2011 07:28 PM)Young Katbodi Wrote: [\[CITE\]](#) But can't you get around that by just entering the recaptcha?

Yes you can unfreeze your msn with the hotmail.com recaptcha code, then quickly login to your desktop messenger account :)

John. - June 19, 2011, 7:32 pm

(Jun 19, 2011 07:31 PM)Trey Johnson Wrote: [\[CITE\]](#) Yes you can unfreeze your msn with the hotmail.com recaptcha code, then quickly login to your desktop messenger account :)BTW dude I updated my post so read again and reply :D.

Trey Johnson - June 19, 2011, 7:41 pm

He is no java coder, he is just editing the pre existing source. Which means he's changing java strings around with out ADDING new string's in. He has no v3, just a preexisting source.

John. - June 19, 2011, 8:37 pm

(Jun 19, 2011 07:41 PM)Trey Johnson Wrote: [\[CITE\]](#) He is no java coder, he is just editing the pre existing source. Trey Johnson - June 20, 2011, 2:00 am

I responded to that thread of yours :)

(Way too short)

vinsjuh91 - June 20, 2011, 2:27 am

Hey,

I was wondering if there is a way to host the bot 24/7 without having my computer run 24/7

Anyone out here that know how to get this done :) ?

Trey Johnson - June 20, 2011, 2:43 am

(Jun 20, 2011 02:27 AM)vinsjuh91 Wrote: [\[CITE\]](#) Hey,

Get a dedicated or vps server. You can get free vps servers for 30 day's on certain site's.

vinsjuh91 - June 20, 2011, 3:52 am

(Jun 20, 2011 02:43 AM)Trey Johnson Wrote: [\[CITE\]](#) Get a dedicated or vps server. You can get free vps servers for 30 day's on certain site's.

Ok thanks i got a VPS server now. Just figuring out how to set this bot up 24/7 to be hosted ://

Furthermore, how does the massadd work ? When i type ;massadd it says im not authed or whatsoever

Trey Johnson - June 20, 2011, 5:20 am

What do you mean "The Functions" type:

Code ;commands

"To Display Commands"

Read the source file's inside the file to edit if you are familiar with java language, then recompile the source.

vinsjuh91 - June 20, 2011, 6:14 am

Yeah but i dont get the commands ;massadd

What does it do ? Do i have a mass of accounts added on the bot to be able to do it?

Trey Johnson - June 20, 2011, 6:22 am

(Jun 20, 2011 06:14 AM)vinsjuh91 Wrote: [\[CITE\]](#) Yeah but i dont get the commands ;massadd

Go to:

Code C:\Documents and Settings\TreyAllDayNigger\Desktop\iBunny Bot\iBunny Bot\iBunny Bot\files

Inside massadd_accounts add your msn account that you made (The mass-add) with this format:

email@Live.com password

then save it, and restart the bawt!

Or you can type ;commands like i said and add it from your owner account.

vinsjuh91 - June 20, 2011, 6:33 am

(Jun 20, 2011 06:22 AM)Trey Johnson Wrote: [\[CITE\]](#) Go to:

(Jun 20, 2011 10:49 AM)Young Katbodi Wrote: [\[CITE\]](#) I'll give him 1 chance to redeem himself. why do you want ibunny v3? Im pretty sure he just changed the name to v3 and v2 works fine as well. I'm using it atm :) well i see he is online now. did he send already? lol

John. - June 20, 2011, 12:02 pm

(Jun 20, 2011 10:51 AM)vinsjuh91 Wrote: [\[CITE\]](#) why do you want ibunny v3? Im pretty sure he just changed the name to v3 and v2 works fine as well. I'm using it atm :) well i see he is online now. did he send already? lolI'm willing to risk \$10 to who SmartyOwnage is really. A scammer or a java coder. I'll give him some time.

vinsjuh91 - June 20, 2011, 12:25 pm

(Jun 20, 2011 09:46 AM)vinsjuh91 Wrote: [\[CITE\]](#) Thanks for your answer, however ;massadd isnt working. It says im not authed. Also I would like to know how to set this up to get it working :) ty in advance

Realy no one out here who can help me with how to get ;massadd working ? Everytime when i type so it says im not authed -.-

SmartyOwnage - June 20, 2011, 2:15 pm

Massadd isn't working on Kylebot. I used he's massadd java code in my file and it didn't work. Trying to get a whole new one in iBunny V3.

vinsjuh91 - June 20, 2011, 2:32 pm

(Jun 20, 2011 02:15 PM)SmartyOwnage Wrote: [\[CITE\]](#) Massadd isn't working on Kylebot. I used he's massadd java code in my file and it didn't work. Trying to get a whole new one in iBunny V3.

But TS is stating in the OP that the massadd is working.
It just doesn't work o.O ?

SmartyOwnage - June 20, 2011, 2:44 pm

Nope, you can't auth you're accounts. I spenden days of trying to fix it but no, you just can't. Have to rebuild a whole new massadd system and that takes a while. After iBunny V3 i'm quitting in the msn bot section.

vinsjuh91 - June 20, 2011, 2:47 pm

im just wondering why TS says the massadd function is working proper when it is not working at all :')

Will there soon enough be a working massadd script :) ?

SmartyOwnage - June 20, 2011, 2:49 pm

If someone codes one, yes. I'm rebuilding in iBunny V3. Should take 3 days because i'm in my finals right now ;) (Jun 19, 2011 07:41 PM)Trey Johnson Wrote: [\[CITE\]](#) He is no java coder, he is just editing the pre existing source. Which means he's changing java strings around with out ADDING new string's in. He has no v3, just a preexisting source.Ahh, another jalouse morron. Let's play a code-a-msn-bot-game? Let's see who wins..

vinsjuh91 - June 20, 2011, 2:59 pm

But why is there a ;massadd command when it isnt even working and no one willing to make it work ;o ?

SmartyOwnage - June 20, 2011, 3:12 pm

I'm trying to get it work on my bot, but it's pretty shitty hard to code

vinsjuh91 - June 20, 2011, 3:24 pm

(Jun 20, 2011 03:12 PM)SmartyOwnage Wrote: [\[CITE\]](#) I'm trying to get it work on my bot, but it's pretty shitty hard to code

Wel make sure its working when youre selling that bot, Because now i can make instant payments with paypal and we dont get that mess again about echeck :')

John. - June 20, 2011, 3:31 pm

(Jun 20, 2011 03:12 PM)SmartyOwnage Wrote: [\[CITE\]](#) I'm trying to get it work on my bot, but it's pretty shitty hard to code3 DAYS?!?!?! Bro your killing me I already paid -_- . Can you get on MSN for like 5 minutes?

Trey Johnson - June 20, 2011, 6:57 pm

(Jun 20, 2011 03:12 PM)SmartyOwnage Wrote: [\[CITE\]](#) I'm trying to get it work on my bot, but it's pretty shitty hard to code

^ Here's proof he doesn't know shit about java language! Your grammar is horrible mate, if you code as well as you spell i'd say your 'Mass-Add' Function wouldn't work. The mass-add function does work, it's slow on updating it inside the batch file. PHP Code

```
<?php
public void run() {
    while(true) {
        if(System.currentTimeMillis() - lastcheck >= 2000) {
            int newcount = Bot.countcontacts();
            int openconvos = Bot.countSwitchboards();
            minutes++;
            if(minutes >= 60) {
                hours++;
                minutes = 0;
            }
            if(hours >= 24) {
                days++;
                hours = 0;
            }
            if(days >= 7) {
                weeks++;
                days = 0;
            }
            if(weeks >= 4) {
                months++;
                weeks = 0;
            }
            if(days > 1 || days == 0) {
                daysadd = days+" days";
            } else if(days == 1) {
                daysadd = days+" day";
            }
            if(hours > 1 || hours == 0) {
                hrsadd = hours+" hrs";
            } else if(hours == 1) {
                hrsadd = hours+" hr";
            }
            if(minutes > 1 || minutes == 0) {
                minsadd = minutes+" mins";
            } else if(minutes == 1) {
                minsadd = minutes+" min";
            }
            if(weeks > 1 || weeks == 0) {
```

```

wkadd = weeks+" wks";
    } else if(weeks == 1) {
wkadd = weeks+" wk";
    }
    if(months > 1 || months == 0) {
mnthadd = months+" mnths";
    } else if(months == 1) {
mnthadd = months+" mnth";
    }

```

MMM K, replace this string inside your statusupdater.java and recompile it, when you run the bot, the status of the mass-add's, contacts, and so on will update every 2000 milliseconds. So when you restart the bot, it will automatically change the bot's name to the bot's display function :)

Stevie Steverson - June 20, 2011, 10:52 pm

Msn freezer is not working :L

weeks = 0;
            }
            if(days > 1 || days == 0) {
daysadd = days+" days";
            } else if(days == 1) {
daysadd = days+" day";
            }
            if(hours > 1 || hours == 0) {

```

```

hrsadd = hours+" hrs";
    } else if(hours == 1) {
hrsadd = hours+" hr";
    }
    if(minutes > 1 || minutes == 0) {
minsadd = minutes+" mins";
    } else if(minutes == 1) {
minsadd = minutes+" min";
    }
    if(weeks > 1 || weeks == 0) {
wkadd = weeks+" wks";
    } else if(weeks == 1) {
wkadd = weeks+" wk";
    }
    if(months > 1 || months == 0) {
mnthadd = months+" mnths";
    } else if(months == 1) {
mnthadd = months+" mnth";
    }
}

```

MMM K, replace this string inside your statusupdater.java and recompile it, when you run the bot, the status of the mass-add's, contacts, and so on will update every 2000 milliseconds. So when you restart the bot, it will automatically change the bot's name to the bot's display function :)

wtf? I dont get it? Make a whole new statusupdater.java and upload it please :)

Trey Johnson - June 21, 2011, 3:58 am

I just gave you the source :) just replace the public void

vinsjuh91 - June 21, 2011, 4:08 am

still aint working ?

Timo - June 21, 2011, 4:15 am

lawl,i already fixed massadd in smartyownage ones,and i fixed the freeze bug,thanx for sharing anyways oh,and can i get the source mate?so i can maybe mod this one and make a better one?

vinsjuh91 - June 21, 2011, 4:18 am

well im out of here. Was hoping of a proper working iBunny, but its full of bugs and any help isnt welcome. its released already lol without a few functions working. cya

Download:

<http://xxcorrosionxx.fileave.com/KyleBot-V1.rar>

Add my msn: xxcorrosionxx@gmail.com , I can update it a little. I have some java language experience and batch language experience as well.

vinsjuh91 - June 21, 2011, 4:59 am

why you wanted me to add johnson@gmx.com ? I thought you were going to help me but havent seen you online anymore after you couldn't get the bot online -.-

Trey Johnson - June 21, 2011, 5:33 am

(Jun 21, 2011 04:59 AM)vinsjuh91 Wrote: [\[CITE\]](#) why you wanted me to add johnson@gmx.com ? I thought you were going to help me but havent seen you online anymore after you couldn't get the bot online --

Lulz, add it. xxcorrosionxx@gmail.com

John. - June 21, 2011, 9:14 pm

(Jun 20, 2011 06:57 PM)Trey Johnson Wrote: [\[CITE\]](#) ^ Here's proof he doesn't know shit about java language! Your grammar is horrible mate, if you code as well as you spell i'd say your 'Mass-Add' Function wouldn't work. The mass-add function does work, it's slow on updating it inside the batch file. PHP Code

```
<?php
public void run() {
    while(true) {
        if(System.currentTimeMillis() - lastcheck >= 2000) {
            int newcount = Bot.countcontacts();
            int openconvos = Bot.countSwitchboards();
            minutes++;
            if(minutes >= 60) {
                hours++;
                minutes = 0;
            }
            if(hours >= 24) {
                days++;
                hours = 0;
            }
            if(days >= 7) {
                weeks++;
                days = 0;
            }
            if(weeks >= 4) {
                months++;
                weeks = 0;
            }
            if(days > 1 || days == 0) {
                daysadd = days+" days";
            } else if(days == 1) {
                daysadd = days+" day";
            }
            if(hours > 1 || hours == 0) {
                hrsadd = hours+" hrs";
            } else if(hours == 1) {
                hrsadd = hours+" hr";
            }
            if(minutes > 1 || minutes == 0) {
                minsadd = minutes+" mins";
            } else if(minutes == 1) {
                minsadd = minutes+" min";
            }
            if(weeks > 1 || weeks == 0) {
                wkadd = weeks+" wks";
            } else if(weeks == 1) {
                wkadd = weeks+" wk";
            }
        }
    }
}
```

```

    }
    if(months > 1 || months == 0) {
    mnthadd = months+" mnths";
    } else if(months == 1) {
    mnthadd = months+" mnth";
    }

```

So when you restart the bot, it will automatically change the bot's name to the bot's display function :)I have respect for both of you and even since I bought Smarty's bot but Smarty Trey just fixed your bot. That's what is called ass kicking and being classy. ?

Trey Johnson - June 21, 2011, 10:19 pm

Thanks :D // Too Short < - -

vinsjuh91 - June 22, 2011, 1:51 am

can u tell me how to fix the mass add -.- ?

Trey Johnson - June 22, 2011, 2:39 am

Mass add work's :D // Blah blah too short.

vinsjuh91 - June 22, 2011, 2:44 am

Btw trey, is it possible that when a girl her msn got frozen she couldnt log in to a community forum anymore as well?

A friend of my froze a girl her msn and then she text messaged me "Give me back my password" Lol.

I knew she couldnt log in at msn, but the same time she couldnt log in to a forum anymore as well :0

How to do this if possible ?

Trey Johnson - June 22, 2011, 2:54 am

Me and a friend are working on updating the ibunny source. We are adding in a feature that logs a fake captcha code to the web browser that way you cannot have any access to your email.

vinsjuh91 - June 22, 2011, 2:56 am

(Jun 22, 2011 02:54 AM)Trey Johnson Wrote: [\[CITE\]](#) Me and a friend are working on updating the ibunny source. We are adding in a feature that logs a fake captcha code to the web browser that way you cannot have any access to your email.

But www.forum.fok.nl is a community forum she is registered on.

When i freezed her email she couldnt log in on that community forum as well.

Could it be because she was frozen? I dont get it why she couldnt log in on forum.fok.nl at the same time when her msn was frozen :o

Trey Johnson - June 22, 2011, 2:58 am

This is an msn bot, not a forum bot :}

vinsjuh91 - June 22, 2011, 3:02 am

(Jun 22, 2011 02:58 AM)Trey Johnson Wrote: [CITE](#) This is an msn bot, not a forum bot :}
Do you have any idea why she couldnt log in on that forum anymore ? Lol.

All what happend what her email was frozen :/

Trey Johnson - June 22, 2011, 3:08 am

idk, and i don't care dude. Maybe shes retarded and lost her password, maybe she was hacked and they changed her password, maybe the admin deleted her account. Maybe the sites forum database is lagging and telling her the password is wrong. Idk, could be a lot of reasons.

SmartyOwnage - June 22, 2011, 6:37 am

Shut up you, you fucking leecher. Mm. Thanks. I will use this. But I don't get what you mean by "But, this file has working massadd's and freezing, but it does not load all your mass emails all the way. Higher you get in mass adds the slower it picks it up. "

SIM-676321 - July 19, 2011, 5:26 am

massadd don't work for my can you help me :(

xMacMiller - July 19, 2011, 11:52 pm

Thanks soo much XD I've been looking all over for this :)

SIM-676321 - July 20, 2011, 6:26 am

do the massadd work by you??

Belguim - July 20, 2011, 8:54 pm

Very nice mate i like it =)

+1 , but you have to now synacide is a real hater,and haters gonna hate,im starting to like you alpa :P

Ongeregistreerd - November 2, 2012, 9:19 am

Update download links pleas

It doesnt work all the download links are expired

SmartyOwnage - November 2, 2012, 9:40 am

Freezer can't work anymore because of the updates of Hotmail. Or did you add a new freezer string in the code? Then it should work. iBunny is based from Kylebot, indeed, but it's not a ripoff. Good luck with this I guess?[/align]

Chaoukis - November 4, 2012, 12:28 pm

What can this bot exactly do? Because only freezing is useless :\$
