Thread: [Remove Duplicates App - which can be used for email lists, password lists and more!](#)

Moen - June 20, 2011, 4:44 am

I have seen long email lists with duplicates and i wanted to do something about it.
So i made this little tool which removes duplicates.

Looks good. Thanks for the share.

Releasing the source?

Releasing the source?

This is easy, there you go :)

Code Dim EmailList As List(Of String) = {"abc", "abc", "cba", "abc"}.ToList

Dim NewList As New List(Of String)

For Each Email As String In EmailList

If NewList.IndexOf(Email) = -1 Then NewList.Add(Email)

Next

The value of NewList is now {"abc", "cba"}

I see someone asks for the source so Here is is:

By the way. listbox1 and textbox3 is hidden in the 2 column(between the visible textboxes)

Excellent release and nice work :D

Moen - June 23, 2011, 11:06 pm

I updated my app added som extra features like. Load, Save, Copy, paste, allowed to have text over 1411 lines and icon XD

Nice program man i want to use it , i have downloaded it but if i load a list with 108k lines then it goes stuck :P

Maybe you can fix this would be great

2C. - July 1, 2011, 9:04 am

I Bet if you have a big list with alot of e-mails it will crash.
