No need to scan for viruses

This uses the same method as roxer doxer ;)

Hope you all enjoy it

Sorry for the shitty code, you can make it better i just spent no time at this at all

Managed to DoX one of my emails, time to junk that one...

Bigandrewgold - June 22, 2011, 10:22 pm

does it use the survey sites for the doxing?

Cherish Life - June 22, 2011, 11:02 pm

Can you manage to not allow popups? its so annoying. xD

Other than that its good.!

No need to be rude.

And i totally didn't know that was the source, i thought it was the exe. :P
which i already had, btw. nice doxing program. Deserves more.

Mind if i use the method you used for a Spy project?

How would you know there were popups if you didn't run the program or look at the source?

Turmoil - June 23, 2011, 7:21 am

to fix the popups use webrequests

MisterK - June 24, 2011, 11:39 am

hehe thnx for this :p this will be really helpful for future projects :-D do you mind if i implement this to my future project ?

ra1d - June 24, 2011, 12:40 pm

Holy shit, I am getting shit loads of errors.

Like what? I'll help you out.
shouldn't have any errors

NinjaxDGx - June 24, 2011, 12:56 pm

Dude this didnt work for me when i downloaded it

WHY are you posting in this thread regarding the source you dumb fuck, go post in my regular

release thread you dumb fuck.
dumb fuck.

/dumb fuck.

Evader - June 29, 2011, 9:36 pm

This is a very nice release man, even though I already have this since someone gave me it. I say Thanks for this very cool / nice release!

Turmoil - June 29, 2011, 9:48 pm

thank you hex pro appreciate the feedback

vampray - March 24, 2015, 10:47 am

The download link doesn't work anymore is there a newer version or anything?
