It's called Path Traversal but is more known as Local File Inclusion.

What you can do with this is you can load files from the server which you shouldn't be able to do.

Nice Find mate..Try a LFI on it :)

Hannibal Lecter - June 23, 2011, 7:04 am

thx but i have some problems finding with the lfi...

Nice find.

OffTopic,

Didn't you claim to be a member of Lulz Sec in another topic?
