Thread: [\[HOT\] Facebook profile picture like hack \[HOT\]](#)

Zeus1887 - June 24, 2011, 11:28 am

Hello hf mates.

Today i am going to teach you a very nice trick about liking your profile picture.

Ok this is not any of "those" fake programs that automatically gives you like a bilion likes to your profile picture.

TIP* --- : Be aware because there are no any programs that hack facebook accounts or that gives you automatically likes. Usually people download that and get infected.

The real key lies in you.

Ok lets get started:

Step 1 :

Make an account in gmail.com (short link) :

<https://www.google.com/accounts/NewAccount?service=mail&continue=http://mail.google.com/mail/e-11-ee80a769d30bb9845913879984493-63fc3a6ceb76b20a217db1fada71138cca066d21&type=2>

Step 2 : when you made your account example. (something@gmail.com) go to the facebook login site, then click sign up. Then make new account with fake profile name . Important is to register new account with the gmail that you created in step 1 .

Step 3 : when you registered to the facebook go to your gmail account and activate facebook account. Ok when you did that go to the fake facebook profile and important is to hide your all informations (so to your friends cant see its a fake profile they just see its hidden account)... OK add your real facebook profile to the friend list , they accept it , and go back to the fake account and like your profile picture.

And now you need to go again to register a new facebook profile and again use fake name but this time you DON'T need to make new email just in the email window type if your gmail account was (something@gmail.com) make it (s.omething@.com) facebook then thinks its a new email but on gmail it is the same account (in the gmail account ... (dots) don't exist) .

This is the EASIEST and the ONLY way for "hacking" facebook likes.

And make sure you go to the gmail and activate the fake profile.

I can make 1 account in 1 minute maximum.

So when i am bored im just doing myself likes so people get amazed how much likes i have on my profile picture. ?

I won't post anything i didn't try.

If you don't undersatnand something feel free to ask me !

?

Please take the time to learn english a little better, there were various grammatical errors that are crucial to the understanding of this tutorial. There is spell check for a reason.
