Hello HackForums!

Zenawenliang here again to provide invites to the invite only website, SuperPoints. You basically get points from videos, the SuperLucky button, and optional surveys. You don't need to do the surveys though, they can go to hell. Basically though, you come everyday watch a couple of videos, and spin the superlucky button a couple of times, and earn a good amount of points. These points you get can get redeemed for Many gift cards, including, Paypal, iTunes, Amazon, and many more! I almost have enough points for one, so I will update later with a picture. So anyways lets get on with it.

Instructions:

1. Click a invite link, if it is taken, chose another.
 2. Register with fake info, except for email.
 3. If it is unavailbe in your area, download and install ProXPN a VPN that makes it look like your in Miama, Florida, United States.

Getting Points:

1. Spin the SuperLucky button (best way)
 2. Watch videos.
 3. Do free surveys (Not Recommended, but earns good points.)
