Welcome to the next generation of web hosting

ExinoHosting provides fast, secure, and reliable web hosting accompanied by 24/7 tech/sales support at a low, affordable cost. It does not matter if you are looking to start up your own person website or a company website, ExinoHosting has the tools you need to succeed. Each account includes basic email/chat support, one-click script installer, advanced site builder, and each account is backed by our ANYTIME moneyback guarantee.

Just because almost everyone enjoys the summer, we have decided to give 25% OFF all new signups for the entire summer. Just use the promotion code, "summerlove" on checkout.

Just wanted to let everyone know that we are now on a secured 256bit encrypted SSL. All your information is fully encrypted so your safe to use your information when ordering.

Why ExinoHosting?

ExinoHosting has been providing hosting services since early 2010 and we are dedicated to customer satisfaction. We have a wide range of features, a dedicated tech support team, and we are not a one man team. ExinoHosting is a company, not some poorly built website from a template that a 14 year old kid decided to make because everyone else was doing it. ExinoHosting is different, we're new, and we care about our customers. We use some of the [most advanced technologies](#) to make sure our servers are secure, your information is safe, and keeping down time to a minimum.

#1 Rated Control Panel - cPanel (Custom Design)

99.9% Uptime

Low, Affordable cost - round the year promotions

Weekly compliment backups

ExinoHosting Support Dept. powered by Kayako Fusion

We are SSL Secured

ExinoHosting is secured by a 256bit encrypted SSL certificate. Having this ensures that your personal information such as your email address, name, home address, and even your billing information (creditcard, paypal, etc) is secured. Ordering from sites without a SSL certificate is a bad practice and should be done with extreme caution. By ordering though a site that is not encrypted you risk your personal and billing information can be leaked or stolen and to be used in account

fraud. Ordering from sites that are SSL secured is a safe and secure ordering practice, only sites that are SSL secured can guarantee that your information is and always be secure.

All accounts are equipped with Unlimited Databases

Unlimited FTP Accounts

Unlimited Subdomains

FREE Advanced site builder

One-click install of over 200+ web scripts

Our Anytime Moneyback Guarantee

Instant Activation (upon payment)

CloudFlare Account

Each account also has access to our addon features. A few of our addons include SSL Certificates, hourly website backups, priority support, and more to come.

FAQ (Frequently Asked Questions)

Q: Do you have DDoS protection?

A: It's really hard to prevent DDoS attacks from happening, but we do take quite a few precautions in the event that one does happen. We have CSF as a software firewall that can be used to block IPs, we have a RioRey to mitigate extremely severe DDoS attacks, and we have scripts to Null-route IPs. Additionally, we have NOC technicians on staff 24/7 ready to mitigate attacks, should one arise.

Q: Do you offer reseller hosting?

A: Yes, ExinoHosting offers reseller hosting as an addition to your shared hosting account. The reseller addon costs only \$1.00 a month, however, each account will go against your allowed disk space and bandwidth.

To gain reseller status you need to contact the sales department and they will further assist you.

Q: Do you offer free domains?

A: ExinoHosting does offer free domains, however, the professional package is needed and a payment plan of 3 months or higher is also required.

If a domain EEP code is requested, the client must pay the 20.00 fee to retrieve ownership of the domain.

Q: What is your refund policy?

A: ExinoHosting offers a 45 day money back guarantee on all hosting plans. However, domain costs will be deducted from the issued refund.

Q: What is priority support and how do I get it?

A: ExinoHosting offers a support plan called Priority Support. This support plan allows each paying customer the right to a personalized support agent who will assist you with all your concerns or

questions. Priority support also gives users a 15min response time and ability to use the ExinoHosting Support hotline for technical emergencies. The cost for priority support is a mere \$15.00 a year.

Q: Where are your servers located?

A: ExinoHosting's servers are located in Scranton, Pa, Orlando, FL, Chicago, Il, and in various locations in the UK.

Q: Do you accept credit cards?

A: Yes, ExinoHosting does accept ALL major credit card carries along with a few minor carriers. ExinoHosting uses 2CheckOut as a credit card payment processor, a world leader in credit card payment support.

Q: Are you on a reseller account or that of a alpha reseller?

A: No, ExinoHosting does not utilize any form of reseller account to provide our online services. We use a network of cloud VPS systems and dedicated servers to provide a fast, secure, and reliable web hosting experience.

Q: What is the OneClickInstall SSL all about?

A: Since installing SSL certificates can be annoying and confusing we have decided to make this easier on our users. With our OneClickInstall SSL system all a user needs to do is buy one of our voucher codes and use that code to install the SSL on the domain. Setup usually takes less than a minute!

The Plans

ExinoHosting has three plans to chose from. These plans are Basic, Advanced, and Professional. Each plan has a different amount of allowed diskspace, bandwidth, email accounts, addon domains. More information about our plans is listed below.

Basic

==

Disk Space: 1 GB

Bandwidth: 20 GB

Addon Domains: Unlimited

Email Accounts: Unlimited

Priority Support: Not Included

Free Domain: Not Included

Advanced (most popular)

==

Disk Space: 5 GB

Bandwidth: 100 GB

Addon Domains: Unlimited

Email Accounts: Unlimited

Priority Support: Included

Free Domain: Not Included

Professional

==

Disk Space: 15 GB

Bandwidth: 300 GB
Addon Domains: Unlimited
Email Accounts: Unlimited

Priority Support: not included
Free Domain: Included (3 month payment plan or higher)

If you would like a more organized list, please visit our [Web Hosting](#) page.

ExinoHosting Affiliation Program

We have now decided to activate our affiliation program for our clients. Each of our clients can earn up to 10% of each sale they bring in. If you are one of our clients and would like to sign up for our affiliation program, you can do so by clicking the link provided below.

<https://my.exinohosting.com/affiliates.php>

Need help or have Questions? - Powered by Kayako

If you have any questions for us at all, please visit our website and talk to an agent who can assist you. You may also use our [contact forum](#) or you may send me a [private message](#).

The ExinoHosting Support department is now powered by Kayako Fusion, one of the most prestigious of all support suites that are available. Kayako is fully integrated with our custom whmcs billing system, so clients do not need to visit the actual support center, unless needed. We are constantly updating our KB, so if you have any articles that you think that should be added, please feel free to contact one of our agents.

Please visit us: www.exinohosting.com

Thanks,
Tyler.

Dawncore - June 25, 2011, 4:59 pm

Vouch for this excellent host since I have had this my site has only been down once and that was because of an ub3r DDoS attack.

The down side to this is the quota you added you cannot host a booter with that on. :(

.bLaZeD - June 25, 2011, 5:06 pm

Vouch for itylerallen, this hosting is great. Its 99.8% uptime is amazing, and when it is down it's only for a short time.

AnthonyWasH3r3 - June 25, 2011, 5:15 pm

I have had excellent experience with this hosting in the past. May consider it later on.

(e1usive)D3viant - June 25, 2011, 11:23 pm

Thank you guys for the vouches and comments. I shall add them to the vouches list later on tomorrow. :P

ISO - June 26, 2011, 12:29 am

One of the best hosting ever , really impressive !

(Jun 27, 2011 07:42 PM)Condirant Wrote: [\[CITE\]](#) Great work and services, it's always a pleasure to work with you. :)

Like wise man, you and I will have business in the future i am sure.

Server Update

ExinoHosting has now enabled a fullscale security system due to an UNNEEDED amount of ddos attacks today. We know, or rather assume with a lot of info, who is behind it and its another host from HF. The reason, jealousy.

L?v?? - June 28, 2011, 4:19 am

i have this service... i feel good with this.. :) i never got any server problem..

my rating.. 10/10 :)

Big Vouch!!!

????

????

Thank you for the kind words mate. Are there any features you would like to be seen added to our hosting or have any general suggestions?

Velocity - June 28, 2011, 2:21 pm

YOU SHOULD SELL DEDIS!!! lol that would actually be pretty sick ;)

(e1usive)D3viant - June 28, 2011, 7:21 pm

(Jun 28, 2011 02:21 PM)The Epic Web Hoster Wrote: [\[CITE\]](#) YOU SHOULD SELL DEDIS!!! lol that would actually be pretty sick ;)

We will be adding these soon, maybe within the next week or so.

xbrahaxz - June 28, 2011, 7:51 pm

I wouldn't suggest buying from, there not even on dedicated servers.

<http://exinohosting.com.dedicatedornot.com/199.27.135.81>

(e1usive)D3viant - June 29, 2011, 7:05 am

ExinoUpdate

So, anyone who is on our hosting knows that we had a number of ddos attacks this week. Only one of which actually took us down, only for a maximum of 1min tops. However, I have confirmed my submissions on who the attacker is, and yes it is a member of HF. In fact, it is a web hoster of HF who allows botnet hosting. We will not say names, but the attack came from India.

Also, we have been getting people saying that we are not on dedicated servers, they have posted links to try and verify this accusation. However, the ip addresses that are on our account from a whois search are not our actual ip address, but a security service ip.

Thanks,
Tyer

Diabolic - June 29, 2011, 4:43 pm

This company is doing so well I have noticed this within the last few weeks, well done Tyler.

(e1usive)D3viant - June 30, 2011, 7:14 am

(Jun 29, 2011 04:43 PM)Diabolic Wrote: [\[CITE\]](#) This company is doing so well I have noticed this within the last few weeks, well done Tyler.

Thank you for the kind words, mate. To be honest I believe we have done well for the first few days we are open. ExinoHosting has generated 833 unique page views in only two days and we even

have received 28 unique threads (ddos attacks) in the same two days. As you can see we are still up and running fine, despite these attacks.

Just a few statistics I found interesting.

XiX Eb0y XiX - June 30, 2011, 10:55 am

Just a quick update. Servers are running faster than before and the general outcome of Exino is improving day by day making us a better choice!

(e1usive)D3viant - July 2, 2011, 6:25 am

(Jun 30, 2011 10:55 AM)XiX Eb0y XiX Wrote: [\[CITE\]](#) Just a quick update. Servers are running faster than before and the general outcome of Exino is improving day by day making us a better choice!

Just to touch up on the updates. We have enabled a feedback system, so if you have any suggestions or comments you would like to leave, please use it. The feedback button is located at the bottom right of your screen, so just click the button and leave your feedback. Hopefully we can use this to improve the services and the quality of our services.

Statistics Update

Within only 5 days time ExinoHosting has generated over 7k Unique page views. In this time ExinoHosting has also seen 139 ddos attacks.

(e1usive)D3viant - July 3, 2011, 3:11 pm

We have now activated our affiliation program for our clients. Each client can ear up to 10% off all sales that are brought in by your referral link.

<https://my.exinohosting.com/affiliates.php>

Enjoy,
Tyler

(e1usive)D3viant - July 6, 2011, 9:46 am

Personal Statement

I dont really do this often, but this morning I woke up to 100 some emails and my phone ringing because of an attack we had against out servers. I am a truthful person and I will not lie to you guys, we had some major downtime, more than I would have ever expected. However, the ddos attack has been eliminated in a timely manner and I have added a new layer of protection against attacks. I'll put more information on these upgrades on our twitter and blog later today.

Anyways, I have to say I am very much flattered by all the attacks we have gotten and the amount of effort people are putting into an attempt to take us down. To be honest I am more excited about the amount of attacks we have gotten than the 133 clients we have received. I see it this way, who ever is doing this obviously is another host on hackforums and they feel we are a threat. Why? Well more than likely they are insecure about their services, website, own protection, etc. I do have an idea on who it is, but names will not be posted.

Like I said, this is rather flattering, but at the same time its rather annoying. However, this is a good thing. The more attacks we get and the larger the attack is, the easier it is to stop and prevent future attacks from happening. So I guess they are actually doing more good for ExinoHosting than bad. Maybe we should start paying them for their efforts and for simply helping us out. :)

Thanks guys,
Tyler.

Pillows - July 6, 2011, 1:15 pm

As support staff I should also note this. Do not be shy to us. If you have any feedback good or bad it would help us a lot. Getting a support ticket is almost like making my day for me. So if you wish to ask us anything about our sales or services you can do so.

(e1usive)D3viant - July 7, 2011, 1:03 pm

(Jul 6, 2011 01:15 PM)Moorea Wrote: [\[CITE\]](#) As support staff I should also note this. Do not be shy to us. If you have any feedback good or bad it would help us a lot. We might be moving our support suit to Kayako here soon, so I am sure you will enjoy that.

Anyways, I have updated all the plans to include unlimited domains, emails, ftp, etc. I have also made some adjustments to our servers, so faster speeds are here. ^^

IchigoW - July 9, 2011, 9:24 am

HUGE vouch for him :)

Switched from WhiteLabel and bought THREE YEAR HOSTING right away.

The owner's support is AMAZING.

The hosting is also like 100x faster than whitelabel.

When I was with my previous host, half the time, it took 10 min. to login to Cpanel :P

Anyways, amazing host :):):)

I was deciding this over hostinBlast mainly, but I have to say, the overall design and addons were way more professional.

Look at the other hosting sites compared to this one. At least this one doesn't look like it's made by a 15 year old ;)

???

(e1usive)D3viant - July 10, 2011, 6:03 pm

Ha thanks, I am glad you like the speed of our servers. We are now using our own custom apache script and we have server account limits to keep the speed. And thanks, I am glad you like the design. ?

New Support System

I would just like to inform everyone that ExinoHosting will now be using Kayako Fusion as the default ticket and live chat systems. We have integrated the Kayako ticket system within whmcs as a seamless integration, so you can still use the default whmcs system to submit tickets, or you can use our support system at my.exinohosting.com/support. Users also do not need to reregister with kayako to submit a ticket. We have a loginshare system that will allow all clients from whmcs to use the same login info to login to the kayako support system. I hope everyone will find this helpful.

xC3 - July 12, 2011, 9:06 am

I'll give this a full 110% vouch!

Amazing hosting at the most incredible speeds, great tech team, always gets the problems fixed.

ExinoHosting, probably the best hosting company to date. I would highly recommend this to anyone looking for great hosting!

(e1usive)D3viant - July 12, 2011, 10:35 pm

Thanks man for the vouch, but yes our speeds are quite unmatched for the competition around here. We have our very own custom apache script running so it helps a bit that and the fact we limit each server to 200 accounts. :)

(e1usive)D3viant - July 15, 2011, 7:45 pm

I have put everyone on a new server with our improved Apache script, if you are having any problems please submit a ticket. Also, I am working on our new Kayako support system. We are trying to integrate Kayako fully with whmcs and it should be active on Monday. If anyone has any questions please do not hesitate to ask.

Pillows - July 17, 2011, 11:31 am

We now offer support on our twitter account. <http://twitter.com/exinohosting>

WGWEED - July 17, 2011, 11:39 pm

Thanks just bought the Advanced. very fast setup.

(e1usive)D3viant - July 18, 2011, 10:30 pm

(Jul 17, 2011 11:39 PM)WGWEED Wrote: [\[CITE\]](#) Thanks just bought the Advanced. very fast setup. To bad you didnt order though ExinoHosting, but rather BoxObsessed. But I really must say, its a kick in the ol' chops, getting someone else and order from my thread. :(

Anyways, enjoy the hosting. ;)

Hey guys, I would just like to say we have started rolling out our custom cPanel theme as of an hour ago. I have spent hours today looking at cPanel, the css, and different branding functions so that we can make a completely customized interface that is pleasing to the eyes, professional, and just to add something extra. If you are one of our current clients you should have received an email about this, however, if you are not, well you can hear about it now.

If you would like a preview, I will setup a demo account with restrictions so that you guys cant mess with anything, because I know soon as you get your hands on a cPanel account your going to try and hack it, or deface the main page. If a demo account is not able to be setup, I'll just whore you all with some screenshots and dev shots of what I am making in photoshop. In addition to our default custom theme, we plan on making seasonal themes as well as holiday themes.

I hope you guys will enjoy this because it is taking quite a bit of time and I am actually enjoying this very much, so I just hope you will like the outcome of our effort.

Thanks so much!

Pillows - July 19, 2011, 8:52 pm

Our new cPanel has now been rolled out to all of our current users. If you need a preview of the new cPanel then here it is:

iDabesChinese - August 4, 2011, 11:32 am

Vouch for Tyler, best man ever!

The automatic payment sent 3.45\$ when I already paid and Tyler refunded me!

I been a customer of exinohosting for 5 months now and I love it! I suggest you trying out exinohosting!

NotAPC - August 6, 2011, 11:44 pm

Vouch For This Guy..

Bought hosting.. "advanced" and he set-up vbulletin for me.. i approve of his services..

Avion - August 17, 2011, 5:54 pm

HUGE VOUCH +++++ Just bought Hosting and i love it:)

(e1usive)D3viant - August 29, 2011, 7:10 pm

Glad you guys are enjoying the hosting. We are hoping to get a new line of servers here soon with a few new features that will enhance the hosting experience provided by ExinoHosting. The new site and services will be here before the holiday.

Threadlocks - September 3, 2011, 8:02 pm

Great fast hosting, I have not had one problem yet. Great support, the owner is really dedicated about this project.

The website is really easy to use and it has a lot of 1 click install scripts.
My website is www.hackin.org and I am using this one click install script that comes with it.

I personally think this will get far and be up there with godaddy some day. The servers are blazing fast. If you don't believe me go to my website and click on a few things, no wait time is there?

VOUCH ?

Ant Man - September 3, 2011, 10:53 pm

I'm scared to order as it just sounds too good for me.

(e1usive)D3viant - September 3, 2011, 11:17 pm

(Sep 3, 2011 10:53 PM)Ant Man Wrote: [\[CITE\]](#) I'm scared to order as it just sounds too good for me. The plans are going to change soon, but we will still offer really affordable plans with sufficient space. Just order from us, if you do not like the service then cancel within the 30days to get your money back. :)

Threadlocks - September 4, 2011, 10:25 am

Ant Man, it's really amazing to be honest. One click install is my favorite part plus the blazing speeds, you cant beat it :-)Pm me if have questions about any other install scripts I can tell you if they have it :-)

(e1usive)D3viant - September 4, 2011, 2:00 pm

I am really glad you like the services. We might be getting a brand new server tonight and if there is a bit of downtime I am deeply sorry.

Seeing how ExinoHosting was up before HostPolar it would go to seem that the design they have resembles ours.

Secondly, you are the ones using a template yet again. The one made by Adentio or who ever, they ripped that template from another site I saw. Once I find it I will contact the DC and see that a DMCA is filed against you.

Thirdly, you are always trying to start shit with me. For what reason? You never win, I always come back and hit harder and you end up crying at the end of the day. So if you want to attack me well now its my turn you little twat.

First off, like I said your website is nothing special, in fact it is a template that was bought off template monster as it looks and the images you have you did not even buy (the istockphoto water mark is still there).

Quote:"At this current time we have discontinued our VPS nodes. We have had a few issues in the past and we will correct all issues before they go on sale again. We want to provide you with the best service possible."

You mean you can not afford the VPS nodes, correct? Yeah that seems about right.

Quote:"Great, professional service provided to both myself and my company. Support seems to work around the clock to make us happy." - David Williams,

I would like to meet this David guy because that testimonial seems clearly made up by you.

Quote:Professional Team

Avante Hosting consists of an accomplished team of experienced professionals. In all cases, we will maintain the highest level of talented and skilled professionals who insist on only the highest standards, using the most sophisticated server systems. Our philosophy ensures your needs are important to each and every member of our organization.

That is a lie as well. You do not have an experienced team of professionals. How do I know this? Well because you can not afford an experienced team of professionals.

What is really a joke is that ExinoHosting was the first host to use Kayako Fusion as our support software, well we are the only ones who can afford an actual license. To me it looks like you are on a trial and you are using Kayako's servers. That is interesting because if you have such high powered and dedicated server then running Kayako on your system would be fine. It seems that you are not running kayako on your server more than likely because you are lying about your servers as well.

I am really sick and tired of your bullshit kid. If you think you are some hot shit person, I dare you to take your pathetic website to WHT or DP. They will laugh you right out of that place. You are nothing more than some kid who has some type of god complex and wants to start shit because his mummy made him upset. Get out and stop starting shit with me because I am not going to deal with your childish attitude any longer. Grow up and get out.

(Sep 5, 2011 05:24 PM)Guile Wrote: [\[CITE\]](#) Where's exino hosting servers located at?
Our servers right now are currently located at Scranton, Pa. However, within the week we will be moving to a new DC where our servers will then be located in 5 different countries all over the world. We will give the users an option to chose the location in which they want their hosting from as well.

Any more questions just shoot me a PM or submit a ticket.

Wow tyler thanks for adding those new 1 click install scripts I really like the one you added called ocPortal.

(e1usive)D3viant - September 9, 2011, 12:21 pm

(Sep 6, 2011 12:45 PM)Tyler K Wrote: [\[CITE\]](#) Wow tyler thanks for adding those new 1 click install scripts I really like the one you added called ocPortal.

Glad you like the scripts. There are actually going to be a lot of changes to ExinoHosting within these few coming months. A few of these changes are going to happen this month such as the change in hosting plans. A new design along with new services and full integration between our billing system, support system, and cPanel.

We really hope that everyone will enjoy what is coming.

Threadlocks - September 10, 2011, 11:11 am

This is my last post on this thread.
ExinoHosting.com was our new domain, the old domain was exino.net you can check the registration on that if you want.

Secondly, I do not care who you know. You are a pathetic little kid who is trying to come back after getting demolished.

Where is your paper work friend? Still have none? What a shame. It's also very cute that you cried to have that thread removed.

ps: Why do you always have to have a cactus up your ass? I come on here in a good mood and your low-life self always has to piss me off. Member like you who are always so negative and who constantly lie should be banned from HF. I remember a time when kids like you were not here, oh what a great time it was. Now go away and play with your \$500,000.00 cars, oh wait you lied about that too. Damn.

JTOD - September 12, 2011, 5:57 pm

Actually you did not show anything. I was in that chat the whole time until things got really childish. And yes, you did cry and you reported the posts because you were butt hurt. Also, WHT is kind of trash any more, and the only reason you know about it is because I told you to go there and post your website... which you did not. So please do not try to use my own words against me, even more so when you fail constantly.

I know you are not my friend, you are a little kid who needs a time out.

Also, was that last reply supposed to be your last reply? Yeah, I thought I read that correctly. I guess you lied about that as well. :)

First off, they are dead so thanks for that.

Secondly, WHT is just annoying and really old. It used to be a good place to learn, talk with people, and advertise. Now it's not even worth the time of day. The admins only care about money and like I said, its just really old. The only reason people still visit the site and use it is only because its really the only one out there except DP.

I also use "friend" in a sarcastic manner. -_-

VOUCH

(e1usive)D3viant - September 19, 2011, 3:25 pm

There are going to be a lot of changes in these coming months for ExinoHosting. A new design, new servers, services, addons, support options, and partnerships are all coming. We hope that we will continue to grow and have the privilege to offer our services for the years to come. On a side note, I will not offer any support via my personal IM as of today. All support NEEDS to be done through our support system. This lets our staff not only improve on the way clients are handled, but it also allows us to keep better track of account bugs.

So please, if you need help with your account or have a question in general, please use the ExinoHosting Support system.

(e1usive)D3viant - September 20, 2011, 2:51 pm

Alright, I just wanted to let everyone know that we have changed our web hosting plans, drastically. Here are the plan changes:

Quote:Basic - From 250 GB to 1 GB

Advanced - From 500 GB to 5 GB

Basic - From Unlimited GB to 15 GB

These changes are made to the disk space, changes have also been made to the bandwidth usage as well. You can see these changes below:

Quote:Basic - From 25000 GB to 20 GB

Advanced - From 50000 GB to 100 GB

Basic - From Unlimited GB to 300 GB

I would like to note that no one on our previous plans was near 1GB. So no real danger to any account as been seen. These changes will allow us to offer more accounts per server and will allow us to keep accounts better managed.

If you have any question just ask them.

Thanks,
Tyler.

#1 Unit - September 26, 2011, 4:07 pm

I just bought iv used this hosting before but in the email they didnt include the NameServers.

What are they?

(e1usive)D3viant - September 27, 2011, 12:12 pm

Glad you have enjoyed the hosting and thank you for the good feedback. We are hoping to launch the new site here soon, so we will have a fresh new look coming for ExinoHosting along with a new line of products and services. We are also developing our own in house billing/support system as well, so if everything goes as planned this new launch will be something quite amazing. :)
