Fucking Idiots - June 26, 2011, 1:24 pm

I use nVpn, works great and portforwarding is easy, I'd recommend that myself.

nVpn is good but it doesn't have the same features as HMA! has :p

Sanst - June 26, 2011, 5:25 pm

I have been using HMA for a couple days now, really like it. Except I cannot get VPN to work on my iPod, which makes me :(Anyways, I haven't heard good things about HMA as far as what they log and how easily they give it away.

TheGoodLife - June 26, 2011, 5:30 pm

They only keep logs for 7 days, so in most cases you're safe it just depends on what country, and what you're doing with it..

jalal77 - June 28, 2011, 1:57 am

proxpn is goodit wont keeep logs anymore

The ISP keeps logs i'm guessing..

ignite2030 - June 30, 2011, 3:39 pm

using cyber ghost here, good service so far.

newway - October 15, 2011, 1:50 am

if you use VPN then hiw can ISP keep log?

hazehacker - October 15, 2011, 5:21 pm

cant we just use google crome ? incognito mode to stay hiddin ? lol

jigoe213 - October 18, 2011, 2:59 pm

Great post on VPN, this is good to know for my email hacking!

waqas.nice - October 19, 2011, 5:27 am

what does it mean "this video is private?"

Conch - October 20, 2011, 5:37 am

I've used HMA, really unique VPN and fast too!

I now use TorrentPrivacy VPN, They don't keep logs and protects my privacy from my ISP when downloading torrents and warez.

Tis really nice ;D

ang3ll - October 29, 2011, 2:39 pm

ur video is private how come i need to watch it and can any 1 plz me pm me sum good vpn sites i am a bit noob and i definatly need sum help- plzz

Exploitation - October 30, 2011, 5:55 am

Using VPNOD, good so far and hasn't reduced my internet speeds yet
