Hi Guys!

I found this technique accidentally when I was looking for something else (we will talk about this inside the report) applied it, and to my surprise my adsense stats are totally SHOCKING!!

This isn't something you're familiar with:-

This is NOT about:- Bringing a lot of Traffic

The basic thing to improve your google adsense revenue is to bring a lot of traffic. I know, but this isn't about some traffic building techniques where you find a lot of traffic, conversion and hence improved adsense earnings. Instead I'm gonna show you how to improve your adsense earnings with the same traffic that you have now.

This is NOT about:- Better Ad Positions

Hundreds of people (so called adsense experts) already shared this. I'm not gonna tell the blah blahs again. This report is NOT about how to improve your ad placements to improve your earnings.

This is NOT about:- Find high paying (high CPC) keywords and target them

Oh! Come on, we all know this. I am not gonna talk about finding a high paying keyword with CPC \$44.56 and make some decent income from that.

Then what's this about? What's New in Here?

You don't need a High CTR or 1000s of Visits to Make a Decent Revenue From Google AdSense.

All We Need is a Better CPC (Cost Per Click). You Must Get a Minimum of Ten Dollars for a Dozen of Clicks than Just a couple of Dollars.

Here I'm showing you the adsense stats of one of my websites (Taken for 7 days of last month May)

We had good traffic – Very good conversion and decent CTR – But still the earnings were low, you see that??

I was wondering why these 100 clicks I had that week for this particular website couldn't bring at

least a 50 bucks.

I tried all 'your strategies' we've seen above. Tried different ad positions, targeted better keywords etc. But it didn't bring a big change.

But then, I found this insider secret which could increase the adsense Earnings by a whopping 400%. It was really accidental that I found it. But I had no idea how powerful, how important it was. Now things are different with my adsense sites. Look at this stats. This is for the same website for the month of June.
