Thread: [How to find somebody Facebook profil with a picture](#)

GI?ryallowed - June 27, 2011, 7:44 pm

This is not really hacking, but might come up handy if you have the picture of some random dude/chick and want to find them on Facebook. I did not made this tutorial, but I found that method too , I just made some research to see if someone else had found it too which have returned me positive result so instead of writing a whole new one, I've simply took it, credit goes to the original owner though.

Example Image:

[img]http://profile.ak.fbcdn.net/hprofile-ak-snc4/195292_10738811_1141178_n.jpg[/img]

First: Look at the file name. For example, the I found a photo and want to find the person's Facebook profile, the file name is 195292_10738811_1141178_n.jpg

Notice the name of this file is in a special format. The file is named with three sets of numbers. From that you can tell that this photo was taken from someone's Facebook page.

Second: Using the filename, locate the middle number. In the example photo 195292_10738811_1141178_n.jpg, 10738811 is the middle number.

This number is the profile ID from a Facebook user's profile. In this example the number is 8 digits long. The number may have more digits, it may use up to 15 digits.

Third: Copy and paste the following into your web browser's address bar:

<http://www.facebook.com/profile.php?id=>

Fourth: At the end put the profile ID number you copied from the filename:

<http://www.facebook.com/profile.php?id=10738811>

Go to the address and you should see the profile of the Facebook user from the picture!

Now you try!

Ninjury - June 27, 2011, 7:53 pm

I don't normally see images named that; but then again not checked the actual file to see if there was another way to find the ID.

GI?ryallowed - June 28, 2011, 7:20 pm

This is a bit confusing, would it be possible for you to reformulate the last part please?

SIM-73089 - July 18, 2011, 11:12 am

Who the hell is Amanda Davis?

Thanks for the tutorial.

Haha well she is a random person, and if you ever find this thread back please link me to it :3!

Thanks for the positive comment though!

Thanks for the tut, I keep this in mind ;)

MUT4NT - April 6, 2012, 3:21 pm

hey very useful, thanks for the tuto mate :)

Nille - April 6, 2012, 3:30 pm

Thanks for the tut

Off-topic: Damm i like that sweet dog ^^

lurk3r - June 20, 2012, 3:15 pm

Cool tutorial this shall come in handy :)

Andreavedy - June 20, 2012, 4:54 pm

Now this is fixed...

Hacker 4949 - June 22, 2012, 12:15 am

thanks for ur tutorial its working.

NIIGHT HAWKE - June 22, 2012, 12:55 am

Nice tutorial sir . Thankx for sharing with us :)

#Root - June 23, 2012, 5:10 am

Very nice,I'll use this to find some of my slaves on Facebook :D

emil44 - June 23, 2012, 8:33 am

Another facebook tutorial gonna try

ouak?_?asTa - July 18, 2012, 3:06 pm

unfortunately this only works "sometimes"... any idea why
