Can i have it please im gonna pm you hope it works most Ebooks are fake.
EDIT: I checked out the method, asked a friend from Team Diversity and i just wanted to let
everyone who wants this Ebook know that this method does not work. I mean do not get me wrong
its nice that you are sharing it for free like this but i also found the same exact method on another
thread and it does not work. I wouldn't even call it patched because i am pretty sure this has never
worked or has not in over 2 years.
