They both are a little eye soring. The colors don't go together, but you have the general idea when it comes to themes. Keep working on the color schemes, and you might have a winner!

I agree with you the colors don't match! Bro go to you nears home depo and get a little paint strip that shows you the colors and shit then pick 2 colors from one. they always go good together because there the same base!

Ok thanks for your comments. :) I will try to improove.

Take a look at the graphics section, put it up in the rate my graphics and they should give you some good CnC!

Banks? - July 1, 2011, 3:32 am

I like the green one except for the black textboxes. Other then that it's pretty good.

Vipe® - July 1, 2011, 8:04 am

Oh ok thanks for comment! :)

kishi - July 1, 2011, 8:42 am

looks great for the green one for others colors don't go together

Vhyrian - July 1, 2011, 11:37 am

Sorry to tell you, but I don't like them at all.

It feels to 'cheap' for me.

Vipe® - July 1, 2011, 11:54 am

Yeah I know they are horrible.. I must improve. I made a new fresh one, I passed more time on it.

What you think about it? =>

SoulZeh - July 1, 2011, 12:00 pm

Vipe® - July 1, 2011, 12:56 pm

KingCobraXD - July 1, 2011, 2:12 pm

Vhyrian - July 1, 2011, 2:17 pm

The last one is better, I don't like the middle though, but that's just my opinion ;)

Vipe® - July 1, 2011, 2:36 pm

personally get rid of the outside stroke, it detracts from the image.

Mr. Anderson - July 1, 2011, 3:10 pm

Well the first one looked good to me, but the others have unmatching colors.

IsraX0r - July 1, 2011, 3:43 pm

They look pretty nice as a start.

By the way, how do you create those themes?

Vipe® - July 1, 2011, 4:15 pm

I use GIMP since I'm not on my comp. But Photoshop, so I can make better things..

Kill -> What is outside stroke please? Thanks. :)

Thx for the comments.

CaZzUaLLv3x - July 1, 2011, 4:21 pm

can u send me the source.

anythings better than the shitty windows default theme

Vipe® - July 1, 2011, 4:31 pm

Nope I wont give you those designs sorry.

versx - July 1, 2011, 8:44 pm

I think the best one out of them all is the Green one. Although I don't care for the button colors and black textboxes with no borderstyle at all. I would suggest setting the textboxes background color to something like 30, 30, 30 or 34, 34, 34 (or any color code combination that's similar.) and I also suggest changing the borderstyle of them from "None" to "FixedSingle".

Other than that, it looks pretty good so keep it up!

My \$0.02

Vipe® - July 2, 2011, 6:33 am

Thanks for that comment, I will try a few settings.

marvinn - July 2, 2011, 6:42 am

i dont like them.. its like, its made in paint. hard colors and shit..

Mr.TwEaK - July 2, 2011, 7:02 am

They look ok, good for a start in making custom themes for VB good luck man and keep trying.

Brettly - July 2, 2011, 7:33 am

I'm with marvinn.

I think a shitload more people will be interested more if these were coded. These were made in GIMP like he said so basically this should be posting in the Rate my Graphic section due to the fact that it is not code.

Vipe® - July 2, 2011, 9:22 am

I never said they were coded... BTW, what is coded designs please?

Vipe® - July 5, 2011, 11:38 pm
