In the Lounge on HackForums, born and raised,
On the .NET section is where I spent most of my days,
Chillen out, posting, relaxing having fun,
Trading RSGP on the RS forum,
When a couple of mods, who were up to no good,
Starting banning n00b's in the neighborhood,
I got in one little flamewar and the Techsperts got scared,
They said "you're posting with the RAT's Crew, they don't even care"

I whistled for a middleman but when he came near,
His sig was a penis and had -93 rep in the rear!
If anything I could say that this gamertag was rare
But I thought nah forget it, I'll buy from Jay Bear.
I pulled up to a forum about seven or eight
And I posted a new thread titled "Fuck you Fate."
Looked at my ban notice I was finally there

Oh damn I see a good rapper in the house
Oh wait it's yo girl in a blouse
Riggs can be funny, cool but he's just a plain fool
He be givin' money to Omni to use him like a tool
You got dat silver metal
Damn I wanna smack you with a pedal
I stole your cab from the far rear
We face to face, sensing fear
I see some weed in yo pocket
Wanna give me some?
Don't be a bum
I am from Africa
And I am a sexy rappa'
I steal your awards
Now lets move on foward
Don't be a coward
I know this is long
Just like those pink thongs
Calm down my brother
We will work together
I have a sword
I slice that
I have a fist
I punch that
I have yo girlfriend
I fuck that
WORD.

Doesn't really make sense LOL
