xWiFi - July 5, 2011, 9:18 pm

could i have a 24hr trial of this?

Reasoning is that I have a fair few booters and if this ones the strongest i'd like to buy lifetime on it, rather than buying it and already owning stronger booters

No trials.

I can assure you it's worth buying a month for.

Buy a month and try it.

It's not actually a service. You pay for it, so it's more of a purchase.

You have 2000 shells on dedicated servers? Do you have proof of the strength?

Not even close to all them are dedicated.

I'm going to wait until Emily gets on to do strength videos.

My computer is horribly slow, and sucks for recording.

This just looks like a GFX changed version of Tyler777's public source. You just changed a few colours and got the images from PRODIGY's source and added them in.

Here's the picture you sent me:
