Thread: [\[Monetizing Bandits\]New Group on My Forum](#)

SIM-55606 - July 6, 2011, 8:11 am

I would like to propose the idea to you that some may not like and some may.

I propose that you join my Forum, and if accepted into the group using the application board below, the high quality members of this board are to more easily access information in regards to Monetizing.

It will also help remove the "Post here and THEN PM me" or likewise bullshit that sometimes goes on here, which is painful to say the least. I do admit though that it does help to weed out those who don't really care, but also to deny some lesser quality members access to said material.

Anyway if you are at all interested in joining the Monetizing Bandits, then simply head on over to [ComputechTalk](#) and sign up.

From there fill in the application form below, all the setting out will be provided.

Once accepted, start posting all of the knowledge you have or from the vast array of ebooks you might have acquired over the years.

Any suggestions will be humbled by myself and taken into account.
