Thread: [\\$\\$\\$\[30\] Virtual SP-Like Person Graphic \\$\\$\\$](#)

Baconator - July 6, 2011, 12:11 pm

I want an avatar image to be like a virtual person with an outfit.

EXAMPLE...

<https://hackforums.net/showthread.php?tid=1372188>

BUT...

With ears and actual length legs and fingers, etc... More of a realistic body shape and features...

I want it as a PSD with each clothing item and jewelery item as its own PNG and all of them combine with the body as a PSD.

I am paying up to \$30 if I am impressed with the quality.

Here is a pack with images of what I would like (items, person, hair, etc...): (#)

Sorry for Adfly. It did not let me link directly to #.

It also includes descriptions as the folder name and some image names. Not rocket science. xD

The final image must also be VERY HIGH QUALITY and very large.

Thanks very much all! Impress me. :D

By replying to this thread, adding me on MSN, or private messaging me, you agree to the following:
You are creating me a graphic. This graphic must be made exactly to my specifications and liking. If I dislike it and you do not improve or fix it for me, I am not paying.

I recommend using watermarks because I know what it feels like to be scammed. With the watermark do not make it too large that it hides crucial details.

If you are not a professional graphic artist or a newbie, please do not attempt, it will only be a waste of your time!

You will be paid X sum if I am very impressed and the image is adjusted to my liking. Let X = \$30-USD

Hey, I'd create you a good one but \$30 for this request is very low.

Baconator - July 6, 2011, 2:25 pm

How about \$40? That is if you do very good!

\$40 sounds good to me,

the reason I ask for more is because the exchange rate to £ is very poor, I'm not greedy, lol. =]

Will the thread be closed off now or is this a "competition" to whoever can do the best?
