[Selling] Mass Email Marketing Software + 600K Email List

Description:

This is a small piece of software, I have written from scratch over the past few hours, it's a great tool for marketing products, and websites.

What it does?AutoLoads Emails

Mass Mails Auto Loaded Emails

FeaturesFeature to auto load text file of emails

able to enter title for emails

custom body of email

login with gmail

uses gmail api etc to send mail

Screenshot

[img]http://screensnapr.com/-/uploads/ACFxlR.png[/img]

Support

I will provide all means of support via MSN. It's recommended to read the 'readme.txt' included for best usage.

Updates

Users who purchase this will receive lifetime updates, bug fixes etc.

Pricing and Method

PayPal ONLY. Must send as Gift.\$5 for Uber/Leet/Staff

\$10 for Normal Users

In regards of me having a low post count, don't bother bringing up trust issues with sending payments first as I will be giving this software + list download for review to 3 Uber/leet members.
