The edition you are currently reading is the 49th full edition. To read any older editions of HF News, please go [here](#).

Welcome to another exciting issue of Hack Forums News, your source for all things important. Let's get started; first off this week [Omniscient](#) came down hard on all the repfucked users whining in their posts, threads, and profiles. He simply responded by implementing a new rule which states, "If you get repfucked and complain in the forums such as your profile or in a post you will receive a month ban." To check out the whole story, click [here](#).

[Omniscient](#) has also addressed an issue this week where it has become apparent that groups are being used to coordinate gang-repping. Read more about this issue [here](#).

Our administrator, [Omniscient](#), took a well-deserved one day vacation this week to recuperate. Read his thread [here](#).

Another new rule that has been added by [Omniscient](#) regarding the Hack Forums warez policy is the banning of all torrents, movie downloads and links plus links to illegal online movie sites. To read the original thread click [here](#).

In other news, [panDa](#) is now the new moderator of the [Graphics Requests Section](#). We wish him the best of luck at his new position.

Speaking of moderators, you can now, once again, see the label that states who is moderating the section. It looks like [this](#).

In group news, [Buzz Lightyear](#) is now the new owner of Graphic Masters. He has also promoted [Ethereyte](#) as a leader.

[xerotic](#) left every group he was affiliated with this week. This includes Reverence, the group he led for a short time.

The group Techsperts closed their recruitment in order to review applications and accept or deny members.

[IMG]<http://i1118.photobucket.com/albums/k604/Qwazzy/HF%20News/HFNUsernews.png>[/IMG]

[D?xus](#) has posted a thread about the release of a program to jailbreak an iPad 2, if you would like to read further, click [here](#).

[-mothered-](#) was unbanned this week but has yet to return. We hope to see him back sooner or later.

[Vitani's Mate](#), one of our site's top posters, has returned. His account was apparently compromised and he received a two-week ban as a precautionary measure.

For all the standard and L33T members out there, [PriEŠť](#) is upgrading one member every week. For those who think they deserve it, click [here](#) to submit your application.

[Bitcoin](#), previously known as EctoPlasm, made a rage video about his recent banning. The video caught [Omniscient](#)'s eye, and he unbanned him for now. The video and official statement can be found [here](#).

[Cobalt+](#) has bought the first sticky in Graphic Services. Check out the thread [here](#).

[John*](#) has achieved the rank of Master Donator this week. Such donations are what keep Hack Forums alive; we thank him for his generosity. To see a full list of the Master Donators, click [here](#).

[SpK](#) has returned, after getting permanently banned by [phire nuk3r](#). We all welcome him and his coding skills back to Hack Forums.

[Wolves](#) has received a full ride scholarship for college. To read the full story, click [here](#).

[C4Vendetta](#), a Graphic Masters leader, was added to the dead account group for a few days, then removed from it. He is now back, hopefully for good this time.

This week's repfucks![iHydra](#) got repfucked.

[Zach](#) got repfucked.

[α Nick™ α](#) got repfucked.

[Mr. Anderson](#) got repfucked.

[Torrent.](#) got repfucked.

[Mike.](#) got repfucked again.

[Juicey](#) was banned and repfucked.

[F3aR™](#) was banned and repfucked two times.

[Billy Mays](#) got repfucked and banned for 1 month. [Witch](#) got banned.

[Hot Chocolate](#) has been banned after reaching a 100% warning level.

[The Trend](#) has been moved into the dead account group for constantly pissing off management.  Arizona set a heat record of 118 over the past week. This record was broken in Phoenix. What makes the record-breaking heat worse is that about 4,000 homes are without power, and more importantly, air conditioning. Even stranger, the County Sheriff in Phoenix ordered thousands of bags of ice for the county's indoor jail. Inmates can have as much as they want and for whatever use.

For the second time in 6 years, the Minnesotan government had to shut down. This was caused because the state could not "... bridge the gap between our differences over more complicated areas of the budget." While many republicans tried to avoid a government shutdown at all means possible by making a temporary funding bill, it ultimately failed and the government shut down. The government will hopefully be up and running again and the funding bill sorted out.

In a tragic case of medical marvel, a baby boy was born without skin. When he was born his mother said it looked as if he had third degree burns. The cause of this mystery is that the boy has a rare form of epidermolysis bullosa. Each day is tragic for this young boy as he has to be wrapped in bandages to keep infectious activity down. Even more saddening news, there is no treatment for this horrible disease.

 Interview 1 - Master Meanbean

Spoiler ([Click to View](#))

Interview 2 - Baked

Spoiler ([Click to View](#))xerotic: Hello, Baked, and thank you for this interview. First thing I would like to ask, what made you join Hack Forums?

Baked: I wanted to hack people's Piczo websites and Habbo accounts, I was so 1337. Searched for hacking and found Hack Forums, never looked for another site.

xerotic: Nice, what did you think of the quality and material then?

Baked: It was mostly the same thing, just not as abundant. Lots of kids just asking for stuff, L33T was the only upgrade, mind you this was in 2008-2009. A few coders that I missed from those days, for example Albertino shone in those days.

xerotic: Compared to back then, how is the quality and general atmosphere of the forum?

Baked: I wasn't as active back then, so I can't really be a judge. I came on here to get keyloggers and learn new hacks, nothing more. The tutorials and helping were a lot more direct as there was less members. Overall same atmosphere, just not as large.

xerotic: So you are not exactly a new member, do you think you have the "oldfag" attitude?

Baked: Not exactly, my account was inactive for at least 9 months and I wasn't active until last August.

xerotic: Ah, well I see your registration name is different from your current name. What made you change your name, and how did you choose each one?

Baked: I've changed my name 4 times I think. First was condie99 (my last name) INB4 I get doxed. Second was "Scylla" with a weird character, it is a mythological creature or if you've watched the show Prison Break, it's a high-tech encryption system. Third was "Sunny Side." I was thinking of names and changed to Baked like 10 minutes after. Baked is my heritage now.

xerotic: Well excellent, now on to some more personal questions. Which do you prefer, The Simpsons or Family Guy?

Baked: Neither, I'm a South Park kind of guy. ?

xerotic: Awesome! How old were you when you first kissed a girl?

Baked: In eighth grade, so I was 13.

xerotic: Since then, have you maintained steady relationships, or rocky one night stands?

Baked: I'm more of a casual dater, if the girl wants to date. Sure. But if not, I won't ask.

xerotic: Alright, so in relation to your HF username, do you enjoy baking? What are your favorite foods?

Baked: Favorite food is fettuccine chicken Alfredo, cookies (chocolate) and raspberry pie with ice cream. I always don't mind them hash brownies, ya'dig.

xerotic: Awesome, seems like you enjoy those dessert foods! Anyway, when you look in a mirror, do you like what you see?

Baked: Yeah for sure, it could be better. But I like it.

xerotic: Alright, confidence is key! If you like yourself, others will too. Most of the time. Anyway, back to HF. I hear you are going to be releasing some products on HF soon. Is this true?

Baked: You heard right, I have one product on the market already (shout outs to Emily), [xBooter](#). Next product that is coming out is called "Cryptex", coded completely in C# (shout outs to KillaMuvz). It is FUD and has amazing features. Going to be great. In the next while I will be

releasing a FUD C++ crypter named "Kryptonite." Keep your eyes in the Marketplace if you're interested.

xerotic: Alright folks, you heard him! A few great products will be hitting the market soon! Are you looking forward to the release and the constant support you may need to provide?

Baked: Yes, I'm really looking forward to becoming a big "hustler" in the Marketplace. I will be hiring a team, keep your eyes open in Marketplace Discussions. I've got another idea for a product that might release mid August, more details will be released later on. It's going to revolutionize keylogging and stealing.

xerotic: Awesome, we will be looking forward to it. Until then, would you like to give a few shout outs before we wrap this up?

Baked: Shout outs to Zach, Mike., and Thoth. Thanks for interviewing me xero, makes me feel all squishy about myself.

xerotic: Haha, thanks for the interview, Baked, hope you have a good one.

Another great addition by the news team, yet again your delivering a good read and informing the community. I've got a little suggestion though, why don't you try doing something like "Thread of the week", like the thread that stands out the most get's to be in a news edition, it'll mean more users posting good, high quality threads which is an added bonus and it gives them a little something in return if you know what I mean.

Great work by the news team, keep up the great work.

I personally just enjoy the ones that are & I've had suspected most people would have. The term interview conjures up a serious impression in my mind & have really enjoyed every single other interview both in text & voice. I guess I was just disappointed because I look forward to the news & interviews & didn't get what I was expecting at the time.

ComputerNerd - July 10, 2011, 11:34 pm

Very nice news as always, thanks!!

bugga - July 11, 2011, 9:03 am

Thanks for the read once again :).

Minnesota Nice - July 11, 2011, 10:37 am

You'd be surprised at how annoying having no state government is.

No new drivers licences, no state parks over the 4th of July. It's pretty lame huh.

Crayo - July 11, 2011, 12:10 pm

Hot Chocolate is now in the cool kids club.

Hot Chocolate - July 11, 2011, 12:58 pm

I am indeed Crayo, I am indeed. ?

Forgot about that one, especially if you're going up north. Good luck.

Cyber-Security - July 11, 2011, 7:17 pm

Another great edition of the HF news. Great job news crew! They should all get an award. :)

Minnesota Nice - July 11, 2011, 9:03 pm

I'm up north right now, I've got business to attend to in the cities tomorrow and I have to drive down then back up on Wednesday.

Jaystar - July 12, 2011, 11:17 pm

It was an alright edition, it could have been better... I couldn't stop laughing at Omni and xerotic's reply to that video though.

Ramsay448 - July 13, 2011, 1:11 am

Nice Video, and great edition of the HF News ?

Wilmer - July 13, 2011, 5:27 pm

Another good edition of the HF news. :)

Praefectus - July 13, 2011, 8:08 pm

I can't wait for the 50th edition!

CALIFORNIAN - July 13, 2011, 8:41 pm

Wow, nice! I never thought these existed!

Qwazz - July 13, 2011, 11:40 pm

Possibly, if he continues down this path that may be what has to happen.

Praefectus - July 13, 2011, 11:47 pm

I'll take over Headlines and Other News, if I have too.

?\$3 - Text advertisement
\$5 - Image advertisement
\$7 - Text & Image advertisement

Qwazz - July 14, 2011, 10:00 am

Closing this in 5 minutes new issue's almost done.

Praefectus - July 14, 2011, 10:02 am

No, it won't. I always get the last post.
This is almost the most popular edition of HF News.

Mr Kewl - July 14, 2011, 10:04 am

All because of you Cobalt+

You write great other news.

Praefectus - *July 14, 2011, 10:05 am*

This week's edition should be super awesome. I worked really hard on the Other News.

Mr Kewl - *July 14, 2011, 10:05 am*
